I, **John Mark SUTTON**, residing in Salisbury, Great Britain ("Assignor") state that I am an original co-inventor of the inventions relating to the

**PBD ANTIBACTERIAL AGENTS**

described in the following patent applications:

Great Britain Patent Application number 1521709.4, filed December 9, 2015;

U.S. Patent Application number 16/061295; filed June 11, 2018

(such inventions and description being the "Inventions," and the applications listed above being the "Current Applications"). Assignor confirms that, as of no later than December 9, 2015 as a condition of my employment with Assignee (as defined below), all my right, title and interest in and to the Inventions and in the Current Applications was transferred unto

and its successors, assigns and legal representatives. Therefore, Assignor's entire right, title and interest, for all countries in and to: (1) the Inventions (2) the Current Applications and any invention(s) (including without limitation, improvement(s)) set forth therein; and (3) any and all applications (and all rights and inventions therein) that claim the benefit of or priority to any of the Current Applications (including without limitation any and all non-provisional applications, continuation applications, continuation-in-part applications, divisional applications, renewals, International Applications, national stage applications, foreign counterpart applications, and substitutes); and (4) all the rights and privileges under any and all Letters Patent that may be granted for any of the foregoing in any country, and any reissues, or reexaminations, or extensions thereof have been transferred to Assignee. Assignor requests that any and all Letters Patent for said inventions be issued in the name of Assignee, its successors, assigns and legal representatives, or to such nominees as it may designate.

**I hereby authorize and request Assignee, its agents, or representatives to insert the application number of the current application when known.**

Assignor agrees that, when requested, Assignor will, without charge to said Assignee but at its expense, sign all papers, take all rightful oaths, and do all acts which may be necessary, desirable or convenient for securing and maintaining patents for said inventions in any and all countries and for vesting title thereto in said Assignee, its successors, assigns and legal representatives or nominees.

Assignor authorizes and empowers said Assignee, its successors, assigns and legal representatives or nominees, to invoke and claim for any application for patent or other form of protection for said inventions filed by it or them, the benefit of the right of priority provided by the Patent Cooperation

Treaty, the Paris Convention, and the International Convention for the Protection of Industrial Property, as amended, or by any convention or treaty which may henceforth be substituted for said treaties and conventions, and to invoke and claim such right of priority without further written or oral authorization from me.

Assignor hereby consents that a copy of this Confirmation of Assignment shall be deemed a full legal and formal equivalent of any assignment, consent to file or like document which may be required in any country for any purpose and more particularly in proof of the right of the said Assignee or nominee to claim the aforesaid benefit of the right of priority provided by the International convention which may henceforth be substituted for it.

Assignor represents and covenants with said Assignee, its successors, assigns and legal representatives, that the rights and property herein conveyed are free and clear of any encumbrance, and that Assignor has full right to convey the same as herein expressed.
