WITNESSETH

WHEREAS, Assignor and Assignee entered into an Assignment of Patents, Patent Applications, Trademarks, and Intellectual Property dated March 29, 2012 (“Assignment”, a copy of which is attached to this Agreement as Schedule 1), pursuant to which, among other things, Assignor assigned and transferred to Assignee all of its worldwide right, title, and interest in and to (a) patents and patent applications that Assignor was a sole inventor, (b) patents and patent applications that another person was a sole inventor and had assigned his entire right, title, and interest to the Assignor, (c) patents and patent applications that Assignor and another person or persons were joint inventors and the other inventor or inventors had assigned his/their entire right, title, and interest to the Assignor, (d) inventions disclosed in all such patents and patent applications, (e) trademarks, (f) copyrights, and (g) other intellectual property, as set forth in an Exhibit A attached to the Assignment (collectively, the “Intellectual Property”).

NOW, THEREFORE, in consideration for the foregoing, and for other good and valuable consideration, the receipt and adequacy of which are hereby acknowledged, Assignor acknowledges and confirms that the Assignment transferred and assigned (and if such Assignment did not transfer and assign, does hereby transfer and assign, nunc pro tunc) to Assignee (and its successors, transferees, and assigns) all of Assignor’s worldwide right, title, and interest in and to:

- a) the Intellectual Property;
- b) each of the patents, patent applications, trademarks, copyrights, and other intellectual property set forth in Exhibit A to the Assignment;

- e) any and all direct and indirect divisions, continuations, and continuations-in-part, and any and all patents in the United States and all foreign countries which may be granted therefor and thereon, and reissues, reexaminations, and extensions of patents within Intellectual Property, and all rights under the International Convention for the Protection of Industrial Property; and

- f) all causes of action and enforcement rights, whether currently pending, filed, or otherwise, for the Intellectual Property in the United States and worldwide, including without limitation, all rights to pursue damages, injunctive relief, and other remedies for past, current, and future infringement of the Intellectual Property;

the same to be held and enjoyed by Assignee, its successors, transferees, and assigns, as fully and entirely as the same would have been held and enjoyed by Assignor, had an assignment not been made to Assignee.

Upon request of Assignee (or its successors, transferees, or assigns or any legal representative thereof), Assignor further agrees to execute any and all documents and to do all other things reasonably requested by Assignee in order to vest more fully in Assignee any and all ownership rights in the Intellectual Property.
