## ASSIGNMENT OF INVENTIONS AND RELATED PATENT RIGHTS

WHEREAS:

**SVEND ANDERSEN** (the "Assignor"), having an address at 1275 West 6th Avenue, Vancouver, British Columbia, Canada V6H 1A6

is a co-inventor of certain inventions or improvements (the "**Invention(s)**") described and/or claimed in United States patent application No. 16/295,832 filed March 7, 2019 entitled **METHODS AND SYSTEMS FOR CONVERSION OF PHYSICAL MOVEMENTS TO CARBON UNITS** (the "Application") (the Assignor authorizes McCarthy Tétrault LLP to insert the application serial number and filing date in the text above when such information becomes available);

AND WHEREAS, **Greenlines Technology Inc.** (the "**Assignee**"), a company organized under the laws of British Columbia, Canada, and having a place of business at 214 – 388 West 1st Avenue, Vancouver, British Columbia, Canada, V5Y 0B2 is desirous of acquiring the full and exclusive right, title, and interest in and to the Invention(s), the Application, inclusive of all ancillary rights relating thereto, any and all priority rights derived from said Application, and all patents, design registrations, utility model registrations, and other forms of protection, rights, and titles relating to said Invention(s), in all countries or regions and in respect of the whole or any part or parts of or improvements to the Invention(s);

NOW THEREFORE, for valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Assignor does hereby confirm that he or she has transferred, conveyed, and assigned to the Assignee, and to the extent not already transferred, conveyed, and assigned to the Assignee, hereby transfers, conveys, and assigns to the Assignee, any and all of the Assignor's respective rights, title, and interest in and to: the Invention(s); the Application, including any and all rights to claim priority therefrom in any countries or regions; any further applications for patent, design registration, utility model registration, or other forms of protection, rights, or titles for the whole or any part or parts of or improvements to the Invention(s) in any countries or regions (the "**Further Applications**"), together with the right to file divisional applications, substitute applications, and continuation applications of any one or more of the Application and Further Applications (the "**Divisionals**") and the right to file re-examination and re-issue applications of any one or more of the Application, Further Applications, and Divisionals (the "**Re-issues**"); the right to obtain patents, design registrations, utility model registrations, and all other forms of protection, rights, and titles relating to the Invention(s); and the right to obtain any extensions / supplementary protection certificates (the "**Extensions**"); together with the right to bring proceedings to recover damages and/or to obtain other remedies for acts committed in respect of one or more of the

Invention(s), the Application, the Further Applications, the Divisionals, the Re-issues, and the Extensions, whether such acts are committed before or after the date of this Assignment; with the intent that the Invention(s), the Application, the Further Applications, the Divisionals, the Re-issues, and the Extensions are owned and enjoyed by the Assignee absolutely to the full end of the term or terms for same.

The Assignor hereby agrees, upon request, to provide assistance and to execute any and all further documents which may be necessary or desirable to enable the Assignee and/or its successors and assigns (as applicable) to file, prosecute, bring proceedings, and take other actions with respect to any and all of the Invention(s), the Application, the Further Applications, the Divisionals, the Re-issues, and the Extensions, and any and all patents and registrations granted thereon, and other forms of protection, rights, and titles relating thereto, and the Assignor further agrees to execute, upon request, any and all further documents which may be necessary or desirable to vest or perfect ownership of the Assignee, and its successors, assigns, or nominees, in and to the foregoing patents and registrations, and other forms of protection, rights, and titles relating thereto.

The Assignor hereby authorizes and requests the Commissioner of Patents or any equivalent authority to issue to the Assignee each and every patent, registration, and other form of protection, right, and title granted upon the Application, Further Applications, Divisionals, Re-issues, and Extensions.

This Assignment shall inure to the benefit of the Assignee and its successors and assigns, and shall be binding upon the Assignor and his or her heirs, executors, and administrators.
