**ASSIGNMENT OF PATENT APPLICATION**

**WHEREAS, I, PAUL YANG ZHIWEN** residing at 530 Jelapang Road, #16-49, Singapore 670530 and, I, **DONALD LEE** residing at 209B Punggol Place, #10-1292, Singapore 822209 (individually, "Inventor"), have invented certain inventions and improvements disclosed in a non-provisional application for patent entitled "**SYSTEMS AND METHODS FOR EFFICIENT MEDIA EDITING,**" to be filed in the United States Patent and Trademark Office, with U.S. Serial No. 16/358,416, filing date March 19, 2019 (I hereby authorize my patent agent to insert the serial number and filing date herein upon filing), hereinafter referred to as "patent application";

**WHEREAS, LOMOTIF INC.,** a Delaware Corporation having a principal place of business at 162 South Park Street, San Francisco, CA 94107 ("Assignee"), is desirous of acquiring the entire right, title and interest in the same;

**NOW, THEREFORE,** as a named Inventor on the patent application, for and in consideration of One Dollar (\$1.00) and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, I desire to assign a 100% undivided interest in said patent application to the Assignee;

I hereby assign, sell and transfer a 100% undivided interest in the entirety of the bundle of rights, title, and interest in and to said patent application, unto said Assignee, in and to the right to claim any domestic priority therefrom, together with all claims for damages and profits by reason of any past infringement of any corresponding letters patent and the right to sue therefor, and together with the right to file said patent application or any divisional, continuation, or continuation-in-part thereof in the United States, or in any foreign country or jurisdiction under the Paris Convention or the Patent Cooperation Treaty (PCT), such interests, claims, and rights to be held and enjoyed by the Assignee for its own use and for its successors and assigns,

**PATENT****REEL: 048642 FRAME: 0285**

to the full end of the term for which a patent issuing from said patent application may be granted, and any reissues, reexaminations, renewals, or extensions thereof as may be granted, as fully and entirely as the same would have been held by the named Inventor had this Assignment not been made;

I further agree to execute all necessary and lawful future documents, including assignments in favor of Assignee, or its designees, as Assignee or its Assignees may from time-to-time present to me, in order to perfect title in said patent application;

I further covenant that no assignment, sale, agreement, or encumbrance has been or will be made or entered into which would conflict with this Assignment; and

I further covenant that Assignee will, upon its request, be provided promptly with all pertinent facts and documents relating to said patent application as may be known and accessible to me and I will testify to the same in any proceeding or litigation related thereto and will promptly execute and deliver to Assignee or its legal representatives any and all papers, instruments, declarations, or affidavits required to apply for, obtain, maintain, and enforce said patent application or any patent issuing therefrom which may be necessary or desirable to carry out the purposes hereof.

This Assignment may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.

Upon being duly cautioned, I hereby declare that all statements made herein of my own knowledge are true, and that all statements made on information and belief are believed to be true; and I further understand that false statements and the like so made are punishable by fine, imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful, false statements may jeopardize the validity of the patent application and any patent issuing therefrom.

A handwritten signature in dark ink, appearing to be "J. Smith", is written over the word "PATENT".
