ASSIGNMENT

WHEREAS I/WE, the below named inventors, (hereinafter referred to as "Assignor"), has made an invention entitled:

**RESISTIVELY LOADED DIELECTRIC BICONICAL
ANTENNAS FOR NON-INVASIVE TREATMENT**

for which Assignor has executed an application for a United States Patent on or about the date of this Assignment;

WHEREAS, **OLD DOMINION UNIVERSITY RESEARCH FOUNDATION**, a corporation of the State of Virginia having a principal place of business at 4111 Monarch Way, Norfolk, VA 23508 (hereinafter referred to as "Assignee"), desires to secure the entire right, title, and interest of each inventor in and to this invention in all countries throughout the world, and in and to the application for United States Letters Patent on this invention and the Letters Patent to be issued upon this application;

NOW THEREFORE, be it known that, for good and valuable consideration the receipt of which from Assignee is hereby acknowledged, Assignor have sold, assigned, transferred, and set over, and do hereby sell, assign, transfer, and set over unto the Assignee, its lawful successors and assigns, Assignors entire right, title, and interest in and to: i) this invention, and all above-mentioned applications, and all divisions, continuations, and substitute thereof, ii) all Letters Patent of the United States which may be granted thereon, and all reissues and post-grant reviews thereof, and all rights to claim priority (if any), as well as all rights to claim priority on the basis of these applications, iii) all applications for Letters Patent which may be granted on this invention throughout the world, and all registrations, extensions, renewals, and reissues thereof, and iv) all claims for damages by reason of past infringement of any of the assigned patent applications and patents (including provisional rights to reasonable royalties pursuant to 35 U.S.C. § 154(d)) and the right to sue for and collect such damages and royalties for Assignee's own use;

Assignor hereby authorizes and requests the Commissioner of Patents of the United States and any Official of any country or countries foreign to the United States whose duty it is to issue patents on applications as described above, to issue all Letters Patents for this invention to Assignee, its successors and assigns, in accordance with the terms of this Assignment;

and, Assignor hereby affirms Assignor's belief that Assignor is the original inventor of a claimed invention in these applications, and that Assignor has the full right to convey the interest assigned by this Assignment, and Assignor have not executed and will not execute any agreement in conflict with this Agreement;

and, Assignor hereby further affirms and agrees that Assignor will, without further consideration, communicate to the Assignee, its successors and assigns, any facts known to Assignor in respect to this invention, and testify in any legal proceeding, sign all lawful papers when called upon to do so, execute and deliver any and all papers that may be necessary or desirable to perfect the title to this invention in said Assignee, its successors or assigns, execute all divisional, continuation, substitute, and reissue application, make all rightful oaths and generally do everything possible to aid Assignee,

its successors and assigns, to obtain and enforce proper patent protection for this invention in the United States and any foreign country, it being understood that any expense incident to the execution of such papers shall be borne by the Assignee, its successors and assigns.

IN WITNESS WHEREOF, signed on the dates indicated beside signatures of each Assignor.
