ASSIGNMENT BY INVENTOR

Hans-Ueli Roeck (the "ASSIGNOR"), residing in Hombrechtikon, Switzerland, executes the following assignment. The Assignor has invented one or more inventions (the "INVENTION(S)") described in a United States Patent Application titled "A Hearing Device User Communicating With a Wireless Communication Device" (the "APPLICATION"). The Assignor authorizes the Assignee, identified below, or its representatives to insert the application number of the Application 16/366777 when known.

Sonova AG, a Corporation of Switzerland having its principal place of business at Laubisrütistrasse 28, CH-8712 Stäfa, Switzerland (the "ASSIGNEE"), desires to acquire the entire right, title and interest in and to the Invention(s) and the Application, and in and to any patents (collectively the "PATENTS") that may be granted for the Invention(s) in the United States or in any foreign countries.

For valuable consideration, the receipt of which Assignor acknowledges, Assignor hereby sells, assigns, and transfers to Assignee, its successors, legal representatives and assigns, the entire right, title and interest in and to: the Invention(s), the Application, and any Patents; any divisions, continuations, and continuations-in-part of the Application and any other application claiming priority rights from the Application; any reissues, re-examinations, or extensions of any and all Patents; the right to file foreign applications directly in the name of Assignee; and the right to claim priority rights deriving from the Application (collectively, the "RIGHTS").

Assignor warrants that Assignor owns the Rights, and the Rights are unencumbered. Assignor also agrees to not sign any writing or do any act conflicting with the assignment, and, without further compensation, sign all documents and do such additional acts as Assignee deems necessary or desirable to: perfect Assignee's enjoyments of the Rights; conduct proceedings regarding the Rights, including any litigation or interference proceedings; or perfect or defend title to the Rights.

Assignor requests the Commissioner of Patents to issue any Patent of the United States that may be issued on the Invention(s) to Assignee.

This Assignment may be executed in counterpart.
