CONFIRMATORY ASSIGNMENT

U.S. Patent Application No. 14/653,734

US National Stage of International Application No. PCT/GB2013/053392, filed 20 December 2013

Title: Angiopoietin-2 Specific Tie2 Receptor

WHEREAS ownership rights of Julian Edward Sale in the above-referenced patent application and inventions or improvements described therein belong to Medical Research Council by virtue of employment;

WHEREAS the parties wish to confirm the transfer of these rights in a document suitable for recording with the United States Patent & Trademark Office;

Now, therefore, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the undersigned hereby assigns to Medical Research Council, incorporated under the laws of England and having a head office address at 2nd Floor, David Phillips Building, Polaris House, North Star Avenue, Swindon, Wiltshire SN2 1FL, United Kingdom (hereinafter "Assignee"), its successors and assigns, the entire right, title and interest in the inventions or improvements of the undersigned disclosed in the above-identified application for letters patent of the United States, and in said application and any and all other applications in the United States, which the undersigned may file or be named as an inventor, either solely or jointly with others, on said inventions or improvements, and in any and all letters patent of the United States, which may be obtained on any of said applications; and in any reissue or extension thereof; including without limitation, the right to bring suit and to claim and retain all damages and/or seek other remedies for the past, present and future infringement of any of the foregoing, and the right of priority, including without limitation to claim priority benefit of or to said patent applications.

The undersigned hereby authorizes and requests the Commissioner for Patents to issue said letters patent to said Assignee.

The undersigned states that the application listed above is or was made or authorized to be made by him. The undersigned believes himself to be the original inventor or an original joint inventor of a claimed invention in the application listed above. The undersigned acknowledges that any willful false statement made by him in this paragraph is punishable under 18 U.S.C. §1001 by fine or imprisonment of not more than five years, or both.

The undersigned warrants that the undersigned is the owner of the interest herein assigned and has the right to make this assignment and further warrants that there are no outstanding prior assignments, licenses, or other rights in the interest herein assigned, except in favor of Assignee.

For said consideration the undersigned hereby agrees, upon the request of Assignee and at no expense to the undersigned, to execute any and all applications on said inventions, including without limitation for the reissue,
