Recitals:

Borrower and Guarantors (each a “Company” and collectively, the “Companies”) are parties to a Loan and Security Agreement, dated on or about the date hereof, with Administrative Agent and certain financial institutions (“Lenders”), pursuant to which the Lenders may from time to time make loans to Borrower, which loans are guaranteed by Guarantors and secured by liens upon substantially all of the assets of each Company (as amended, restated, supplemented or otherwise modified from time to time, the “Loan Agreement”).

Lenders are willing to make loans to the Borrower from time to time pursuant to the terms and subject to the conditions set forth in the Loan Agreement, provided that, among other things, the Companies execute and deliver this Agreement to Administrative Agent.

In consideration for, among other things, the execution and delivery of the Loan Agreement by the Administrative Agent and the Lenders, each of the Companies agrees to grant or has granted to the Administrative Agent, for the benefit of the Secured Parties (as defined in the Loan Agreement), a first priority continuing security interest and lien upon and to all of such Company’s right, title and interest in, to and under all Intellectual Property Collateral (defined below) described herein, in each case whether now owned, existing or hereafter created, developed, acquired, arising or existing, wherever located to secure the prompt and complete payment and performance of all Obligations (as defined in the Loan Agreement) in the case of Borrower, and the Guaranteed Obligations (as defined in the Loan Agreement) in the case of Guarantors (together, the “Secured Obligations”), all on the terms set forth herein.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, each of the Companies hereby agrees with Administrative Agent as follows:

1. **Definitions.** Capitalized terms used herein (including those used in the Recitals hereto), unless otherwise defined herein, shall have the meanings ascribed to them in the Loan Agreement. As used herein, the term “Full Payment” shall mean full and final payment of the Secured Obligations and termination of the Commitments.

2. **Grant of Security Interest in Collateral.** To secure the prompt payment and performance of all of the Secured Obligations, each Company hereby grants, assigns and pledges to Administrative Agent, for itself and the benefit of the other Secured Parties, a continuing security interest in and lien upon all of the following property of such Company, whether now owned or hereafter created, acquired, developed or existing, and wherever located (collectively, the “Intellectual Property Collateral”):

(a) all right, title and interest of such Company in and to all patents, patent rights, and patent applications, including, without limitation, the patents and applications listed on Exhibit A attached hereto and made a part hereof (as the same may be amended from time to time), and (i) all reissues, divisions, continuations, reexaminations, renewals, extensions and continuations in part thereof, (ii) all rights to sue for past, present and future infringement or violation of any of the foregoing, (iii) all rights corresponding to any of the foregoing throughout the world and (iv) all income, royalties, damages and payments now or hereafter due or payable with respect to any of the foregoing, including, without limitation, payments under all licenses entered into in connection therewith and all damages and payments for past or future infringement or violation of any of the foregoing and all other proceeds of the foregoing, (all of the foregoing patents and patent applications are hereinafter collectively referred to as the “Patents”, and together with the items described in clauses (i)-(iv), as the “Patent Collateral”);

(b) all right, title and interest of such Company in and to all trademarks, service marks, trademark and service mark registrations, trade names, trade styles and trademark and service mark applications, including, without limitation, the trademark registrations and applications listed on Exhibit B attached hereto and made a part hereof (as the same may be amended from time to time), and (i) all extensions and renewals of any of the foregoing, (ii) all rights to sue for past, present and future infringement, misappropriation, dilution or violation of any of the foregoing, (iii) the goodwill of such Company’s business associated with or symbolized by the foregoing, (iv) all rights corresponding to any of the foregoing throughout the world and (v) all income, royalties, damages and payments now or hereafter due or payable with respect to any of the foregoing, including, without limitation, payments under all licenses entered into in connection therewith and all damages and payments for past or future infringement, misappropriation, dilution or violation of any of the foregoing, and all other proceeds of the foregoing (all of the foregoing trademarks, trademark registrations and trademark applications are hereinafter collectively referred to as the “Trademarks”, and together with the items described in clauses (i)-(v), as the “Trademark Collateral”);

(c) all right, title and interest of such Company in and to all copyrights, works which are the subject matter of copyrights, copyright registrations and recordings thereof, copyright applications and industrial designs, including, without limitation, the

copyrights and industrial designs listed on Exhibit C attached hereto and made a part hereof (as the same may be amended from time to time), and (i) all renewals and extensions thereof, (ii) all rights to sue for past, present and future infringement, misappropriation or violation thereof, (iii) all rights corresponding to any of the foregoing throughout the world and (iv) all income, royalties, damages and payments now or hereafter due or payable with respect to any of the foregoing, including, without limitation, payments under all licenses entered into in connection therewith and all damages and payments for past or future infringement, misappropriation or violation of any of the foregoing, and all other proceeds of the foregoing, (all of the foregoing copyrights, copyright registrations, copyright applications, and industrial designs are hereinafter collectively referred to as the “Copyrights”, and together with the items described in clauses (i)-(iv), as the “Copyright Collateral”); and

Notwithstanding anything herein to the contrary, in no event shall the Intellectual Property Collateral or Trademark Collateral include or the security interest granted under Section 2 hereof attach to any Excluded Asset, including any U.S. “intent-to-use” application for registration of a Trademark filed pursuant to Section 1(b) of the Lanham Act, 15 U.S.C. § 1051, prior to the filing of a “Statement of Use” pursuant to Section 1(d) of the Lanham Act or an “Amendment to Allege Use” pursuant to Section 1(c) of the Lanham Act with respect thereto, solely to the extent, if any, that, and solely during the period, if any, in which, the grant of a security interest therein would impair the validity or enforceability of any registration that issues from such intent-to-use application under applicable federal law (“ITUs”).

3. Representations and Warranties. Each Company represents and warrants to Administrative Agent and the other Secured Parties that, to such Company’s knowledge:

(a) Each of the Patents, Trademarks and Copyrights of such Company is valid and enforceable, and has not been adjudged invalid or unenforceable, in whole or in part;

(b) Subject to the exceptions disclosed in the attached Exhibits and except for Permitted Liens and licenses permitted pursuant to paragraphs 6 and 7 below, such Company is the sole and exclusive owner of the entire and unencumbered right, title and interest in and to each of the Patents, Trademarks and Copyrights, free and clear of any Liens, charges and encumbrances, including, without limitation, pledges, assignments, licenses, registered user agreements and covenants by such Company not to sue third Persons; and

(c) No claim or litigation is pending or threatened against or affecting such Company contesting its right to sell or use any Intellectual Property Collateral that would reasonably be expected to have a Material Adverse Effect.

4. Covenants Regarding Collateral. Each Company covenants and agrees with Administrative Agent and the other Secured Parties with respect to its respective portion of the Intellectual Property Collateral that,

(a) Except for those Patents, Trademarks and Copyrights abandoned or disposed of by such Company in the ordinary course of business in accordance with the Loan Agreement, such Company has used, and will continue to use for the duration of this Agreement, to the extent commercially reasonable and practicable, proper statutory notice in connection with its use of the Patents, Trademarks and Copyrights and has made, and will continue to make, to the extent commercially reasonable and practicable, all appropriate filings with the United States Patent & Trademark Office or United States Copyright Office, as applicable, and any applicable foreign filing offices (including, without limitation, the Canadian Intellectual Property Office) to maintain the Patents, Trademarks and Copyrights in existence, and take such other actions as may be necessary to maintain the registration thereof without loss of protection therefor, including, without limitation, the filing of all applications for renewal, affidavits of use, affidavits of noncontestability and opposition, interference and cancellation proceedings;

(b) Such Company will use commercially reasonable efforts to maintain the quality of the products associated with the Trademarks of such Company except for those Trademarks abandoned by such Company in the ordinary course of business in accordance with the Loan Agreement, at a level reasonably consistent with the quality at the time of this Agreement; and

(c) Such Company shall use commercially reasonable efforts to preserve, protect and maintain all of its rights, powers, privileges, remedies and benefits under and with respect to each of the Intellectual Property Licenses, and shall otherwise comply with the provisions of Section 9.19 of the Loan Agreement with respect to the License Agreements (as defined therein).

5. No Assumption of Intellectual Property Licenses. Neither this Assignment nor any action taken by Administrative Agent or any other Secured Party pursuant to the terms hereof shall constitute an assumption by any such Secured Party of any obligations under any of the Intellectual Property Licenses, and the Companies shall continue to be liable for all obligations and performance of the Companies thereunder.

6. Access to Collateral; License To Use Collateral, Royalties and Term.

(a) [Reserved]

(b) Each Company hereby grants to Administrative Agent for the ratable benefit of itself and the other Secured Parties (i) an exclusive, assignable right and license, during the existence of an Event of Default under each of its Trademarks, (ii) a non-exclusive, assignable right and license during the existence of an Event of Default under each of its Patents and

Copyrights, (iii) an exclusive, assignable right and license, during the existence of an Event of Default under any Intellectual Property License held by such Company with respect to any trademark owned by any person or entity other than such Company to the extent permitted under such Intellectual Property License, and (iv) a non-exclusive, assignable right and license, during the existence of an Event of Default under any Intellectual Property License held by such Company with respect to any patents and copyrights owned by any person or entity other than such Company to the extent permitted under such Intellectual Property License. For each of the foregoing exclusive and non-exclusive licenses, such license will be to use such Trademark, Patent and Copyright and the trademarks, patents and copyrights subject to such Intellectual Property Licenses, in order to complete work-in-process and to sell any Inventory or other Collateral utilizing or incorporating any such Trademarks, Patents and Copyrights and the trademarks, patents and copyrights subject to such Intellectual Property Licenses to the extent that such exclusive or non-exclusive license, as applicable, is reasonably necessary to permit or to facilitate the collection, during the existence of an Event of Default, of any accounts of such Company or the disposition, during the existence of an Event of Default, of any Inventory or other Collateral (the "Secured Party License"). The Secured Party License shall be without royalty or any other payments or fees by Administrative Agent or any of the other Secured Parties to any Company and the permitted use by Administrative Agent thereunder (i) shall be co-extensive with such Company's rights under the Patents, Trademarks and Copyrights and the Intellectual Property Licenses, and (ii) shall be limited only by those restrictions to which Companies are subject under the Patents, Trademarks and Copyrights and the Intellectual Property Licenses. For the avoidance of doubt, the foregoing exclusive or non-exclusive licenses shall only be effective during the existence of an Event of Default. All goodwill arising from any licensed or sublicensed use of any of the foregoing Intellectual Property shall inure to the benefit of the applicable Company.

7. **Third-Party Licenses.** Until Full Payment of the Secured Obligations, no Company shall enter into any license agreement relating to any of the Intellectual Property Collateral with any Person except as permitted under the Loan Agreement or otherwise in the ordinary course of such Company's business; provided, that, no Company shall become a party to any agreement with any Person that is inconsistent with the Company's obligations under this Agreement or the Loan Agreement or that would reasonably be expected to restrict or inhibit in any material respect Administrative Agent's rights to sell or otherwise dispose of the Companies' Inventory, the Intellectual Property Collateral or any part thereof during the existence of an Event of Default.

8. **After-Acquired Collateral.** If, before Full Payment of the Secured Obligations, any Company shall obtain rights to any new patentable inventions, trademarks or copyrights, or shall become entitled to the benefit of (i) any patent application or patent or any reissue, division, continuation, reexamination, extension or continuation in part of any existing Patent or any improvement on any Patent, (ii) any trademark application, excluding ITUs, or trademark or any renewal of any existing Trademark, or (iii) any new copyrights or industrial designs or any modification of any existing Copyright, the provisions of paragraph 2 hereof shall automatically apply thereto, and such Company shall give to Administrative Agent notice thereof in writing within forty-five (45) days after the end of the calendar quarter in which any registration or application relating to such right or interest is filed or obtained and, within such forty-five (45) day period, cause a short form security agreement in favor of Administrative Agent to be filed in

the United States Copyright Office, the United States Patent & Trademark Office or Canadian Intellectual Property Office, as the case may be, with respect to such Intellectual Property..

9. Amendments. Each Company hereby irrevocably authorizes and empowers the Administrative Agent to (x) modify this Agreement from time to time by amending Exhibits A, B, C and D, as applicable, to include any future U.S. or Canadian issued Patents, Patent applications, registered Trademarks, Trademark applications, registered Copyrights and licenses with respect thereto, and industrial designs, included in the Intellectual Property Collateral, and to (y) make any filings required (or reasonably requested by the Administrative Agent (at the direction of the Required Lenders)) by the Loan Agreement to evidence the Administrative Agent's security interest for the benefit of itself and the other Secured Parties in such assets, in each case pursuant to paragraphs 2 and 8 hereof (including the timeframes set forth therein).

10. Remedies.

(a) At any time that an Event of Default exists, Administrative Agent shall have, in addition to all other rights and remedies given it by this Agreement, the Loan Agreement and the other Financing Agreements, all rights and remedies under applicable law and all rights and remedies of a secured party under the UCC and all other rights and remedies under any other applicable law.

(b) Without limiting the generality of the foregoing remedies with respect to the Intellectual Property Collateral, prior to any sale or other disposition of any of the Intellectual Property Licenses or of any right, remedy or privilege of the Companies thereunder, Administrative Agent shall have the right, at any time that an Event of Default exists, and subject to the terms of the limitations of the applicable Intellectual Property License (and to the extent permitted thereby), to (i) use and enjoy the rights and benefits of the Intellectual Property Licenses; (ii) exercise any rights, powers and remedies of the Companies in connection with any of the Intellectual Property Licenses, including, but not limited to, any rights of the Companies to collect, demand or otherwise require payment of any amount under, or performance of any provision of, any of the Intellectual Property Licenses and to modify, amend, terminate, replace, settle or compromise any right or claim under any of the Intellectual Property Licenses; (iii) prosecute any claim, action or proceeding with respect to any of the Intellectual Property Licenses; (iv) use, and permit any purchaser of any of the Intellectual Property Licenses from Administrative Agent to use, without charge, the Companies' labels, general intangibles, advertising matter or any property of a similar nature, as it pertains to or is included in any of the Intellectual Property Licenses, in advertising, preparing for sale and selling any Inventory and in finishing the manufacture, processing, fabrication, packaging and delivery of any Inventory; and (v) collect, receive, appropriate, repossess and realize upon all or any part of the Inventory or the Intellectual Property Licenses, and Administrative Agent (at the direction of the Required Lenders) may forthwith sell, lease, assign, give options to purchase or sell or otherwise dispose of and deliver all or any part of the Inventory (or contract to do so), for cash, on credit or for future delivery without assumption of any credit risk. The rights, remedies, powers, benefits and privileges provided for herein shall be in addition to, and not in lieu of the rights, remedies, powers, benefits and privileges contained in the Loan Agreement or any of the other Financing Agreements and may be exercised concurrently with the exercise of any other right, remedy, power, benefit or privilege available to Administrative Agent under the Loan Agreement or any

of the other Financing Agreements or applicable law. Administrative Agent shall apply any proceeds received to the payment of the Secured Obligations in such order and manner as may be authorized or required by the Loan Agreement. Any remainder of the proceeds after Full Payment of the Secured Obligations shall be paid over to the Companies to the extent permitted by applicable law.

11. Appointment of Administrative Agent as Attorney-in-Fact. Each Company hereby makes, constitutes and appoints Administrative Agent, and any officer or agent of Administrative Agent as Administrative Agent may select, as such Company's true and lawful attorney-in-fact, with full power to do any or all of the following if an Event of Default shall exist: to endorse the Company's name on all applications, documents, papers and instruments necessary for Administrative Agent to continue the registration or maintenance of or to use the Patents, Trademarks or Copyrights, or to grant or issue any exclusive or nonexclusive license under the Patents, Trademarks or Copyrights to any other Person, or to assign, pledge, convey or otherwise transfer title in or dispose of any Collateral to any other Person. Each Company hereby ratifies all that such attorney shall lawfully do or cause to be done by virtue hereof. This power of attorney, being coupled with an interest, shall be irrevocable upon the occurrence and during the continuation of an Event of Default until Full Payment of the Secured Obligations.

12. Fees and Expenses of Administrative Agent. Without limiting the provisions of Sections 9.21 and 11.5 of the Loan Agreement, any and all reasonable fees, costs and expenses, of whatever kind or nature (including, without limitation, reasonable attorneys' fees and legal expenses) incurred by Administrative Agent and Lenders in connection with the preparation of this Agreement and any other documents relating hereto and the consummation of this transaction, the filing or recording of any documents (including, without limitation, all taxes in connection therewith) with the United States Patent and Trademark Office, United States Copyright Office, or the Canadian Intellectual Property Office, as applicable, or in any other public offices, the payment or discharge of any taxes, counsel fees, maintenance fees, Liens, or otherwise protecting, maintaining, or preserving the Collateral, or in defending or prosecuting any actions or proceedings arising out of or related to the Collateral, shall be borne and paid by the Companies in accordance with the provisions of the Loan Agreement or, if paid by Administrative Agent (at the direction of the Required Lenders) or Lenders, in its or their sole discretion, shall be reimbursed by the Companies to Administrative Agent or Lenders, as applicable, **on demand** by Administrative Agent or Lenders, as applicable, and until so paid shall be added to the principal amount of the Secured Obligations and shall bear interest at the per annum interest rate then applicable for Base Rate Loans in each case subject to the limitations set forth in Sections 9.21 and 11.5 of the Loan Agreement.

13. Infringement, Misappropriation and Dilution; Prosecution of Pending Applications; Abandonment. Except with respect to (i) those Patents, Trademarks and Copyrights abandoned or disposed of by such Company in the ordinary course of business in accordance with the Loan Agreement, and (ii) those Intellectual Property Licenses that such Company is permitted to cancel, surrender or release under the terms of this Agreement and the Loan Agreement:

- (a) Each Company shall use commercially reasonable efforts to detect any infringement, misappropriation, dilution or violation of the Patents, Trademarks and

Copyrights, and of any of the Intellectual Property Licenses, and shall notify Administrative Agent in writing of material infringement, misappropriation, dilution or violation detected. Subject to such Company's reasonable discretion in the ordinary course of business or, during the existence of an Event of Default, upon Administrative Agent's request (at the direction of the Required Lenders), each Company shall (i) prosecute diligently any application for a patent, trademark, copyright or industrial design pending as of the date of this Agreement or thereafter until Full Payment of the Secured Obligations, (ii) make federal application on unpatented but patentable inventions, registrable but unregistered trademarks and copyrights and industrial designs, (iii) file and prosecute opposition and cancellation proceedings and lawsuits to protect or enforce any of the Patents, Trademarks or Copyrights and (iv) do any and all acts which are deemed necessary or desirable by Administrative Agent (at the direction of the Required Lenders) to preserve and maintain all rights in such Patents, Trademarks and Copyrights, and the Intellectual Property Licenses, and applications therefor, unless in any such case no Event of Default then exists and the applicable Company has determined that such Patent, Trademark or Copyright, or Intellectual Property License, is not material to the conduct of its business.

(b) Any expenses incurred in connection with such applications or proceedings shall be borne jointly and severally by the Companies in accordance with the provisions of the Loan Agreement.

No Company shall abandon any right to file a patent, trademark, copyright or industrial design application, or any pending patent, trademark, copyright or industrial design application or patent, trademark, copyright or industrial design without the prior written consent of Administrative Agent (at the direction of the Required Lenders), unless such abandonment is permitted under the Loan Agreement and the applicable Company has determined that the applicable patent, trademark, copyright, or industrial design or pending patent, trademark, copyright or industrial design application, or patent, trademark, copyright or industrial design application is not material to the conduct of its business.

14. Administrative Agent's Right To File Suit. Notwithstanding anything to the contrary contained in paragraph 13 hereof, at any time that an Event of Default exists, Administrative Agent (at the direction of the Required Lenders) shall have the right (but shall in no way be obligated) to bring suit instead in its own name to enforce the Patents, Trademarks or Copyrights, and the Secured Party License hereunder, or to defend any suit or counterclaim in its own name to protect such Patents, Trademarks or Copyrights, and the Secured Party License hereunder, in either of which events each Company shall at the request of Administrative Agent do any and all lawful acts (including bringing suit) and execute any and all proper documents required by Administrative Agent to aid such enforcement, or defense, and the Company shall promptly, **upon demand**, reimburse and indemnify Administrative Agent for all reasonable costs and expenses incurred in the exercise of Administrative Agent's rights under this paragraph 14. Administrative Agent shall apply any proceeds from such suit under this paragraph 14 to the payment of the Secured Obligations in such order and manner as may be authorized or required by the Loan Agreement. Any remainder of the proceeds after Full Payment of the Secured Obligations shall be paid over to the Companies to the extent permitted by applicable law. This paragraph in no way affects such Company's right to join or bring suit in its own name to

enforce Patents, Trademarks or Copyrights, and the Intellectual Property Licenses, or to join or defend any suit or counterclaim in its own name to protect such Patents, Trademarks or Copyrights, and the Intellectual Property Licenses.

15. Administrative Agent's Actions on Behalf of Companies; Reimbursement. If any Company fails to comply with any of its obligations hereunder and at the time of such failure or as a result thereof an Event of Default exists then, to the extent permitted by applicable law, Administrative Agent (at the direction of the Required Lenders) may discharge such obligations in the Company's name or in Administrative Agent's name, in the Required Lenders' sole discretion, but at Companies' expense, and Companies agree to jointly and severally reimburse Administrative Agent in full for all reasonable costs and expenses, including, without limitation, reasonable attorneys' fees, incurred by Administrative Agent in prosecuting, defending or maintaining the Patents, Trademarks or Copyrights, or Intellectual Property Licenses, or Administrative Agent's interest therein pursuant to this Agreement, in each case subject to the limitations set forth in Sections 9.21 and 11.5 of the Loan Agreement.

Upon Full Payment of the Secured Obligations and termination of the Loan Agreement, the Administrative Agent agrees, at the Companies' expense, to execute and deliver to the Companies such releases, discharges of security interests and other similar discharge or release documents as are reasonably requested by the Companies and necessary to release, as of record, the Administrative Agent's security interest in and lien on the Intellectual Property Collateral under this Agreement, such releases to be without recourse, representation or warranty of any kind by the Administrative Agent.

16. Intercreditor Agreement. This Agreement is subject to the terms and provisions of the Intercreditor Agreement. In the event of a conflict between the terms hereof and the terms of the Intercreditor Agreement, the terms of the Intercreditor Agreement shall govern and control.

17. No Waiver. No course of dealing between any Company and Administrative Agent or any other Secured Party, nor any failure to exercise, nor any delay in exercising, on the part of Administrative Agent or any other Secured Party, any right, power or privilege hereunder or under any of the other Financing Agreements shall operate as a waiver thereof; nor shall any single or partial exercise of any right, power or privilege hereunder or thereunder preclude any other or future exercise thereof or the exercise of any other right, power or privilege.

18. Remedies Cumulative. All of Administrative Agent's rights and remedies with respect to the Intellectual Property Collateral, whether established hereby or by any of the other Financing Agreements, or by any other agreements or by applicable law shall be cumulative and may be exercised singularly or concurrently.

19. Severability. The provisions of this Agreement are severable, and if any clause or provision shall be held invalid and unenforceable, in whole or in part, in any jurisdiction, then such invalidity or unenforceability shall affect only such clause or provision, or part thereof, in such jurisdiction, and shall not in any manner affect such clause or provision in any other jurisdiction, or any other clause or provision of this Agreement in any jurisdiction.

20. Entire Agreement. This Agreement, together with the other Financing Agreements, constitutes and expresses the entire understanding of the parties hereto with respect to the subject matter hereof and thereof, and supersedes all prior agreements and understandings, inducements or conditions, whether express or implied, oral or written, with respect to the subject matter hereof and thereof. This Agreement is subject to modification only by a writing signed by the parties, except as provided in paragraph 9 hereof.

21. Successors and Assigns. The benefits and burdens of this Agreement shall inure to the benefit of and be binding upon the successors and assigns of Administrative Agent and each other Secured Party and upon the successors and permitted assigns of each Company. No Company shall assign its rights or delegate its rights or assign its duties hereunder without the prior written consent of Administrative Agent and Lenders.

22. Waiver of Acceptance. Each Company hereby waives notice of Administrative Agent's acceptance hereof.

23. Governing Law. This Agreement shall be governed by the internal laws of the State of New York but excluding any principles of conflicts of law or other rule of law that would cause the application of the law of any jurisdiction other than the laws of the State of New York.

24. Waiver of Jury Trial. THIS AGREEMENT SHALL BE SUBJECT TO THE PROVISIONS REGARDING SUBMISSION TO JURISDICTION AND JURY TRIAL WAIVER SET FORTH IN IN THE LOAN AGREEMENT, AND SUCH PROVISIONS ARE INCORPORATED HEREIN BY THIS REFERENCE, MUTATIS MUTANDIS.

25. Counterparts. This Agreement may be executed in counterparts (and by different parties hereto on different counterparts), each of which shall constitute an original but all of which when taken together shall constitute a single contract. Delivery of an executed signature page to this Agreement by facsimile or other electronic transmission shall be effective as delivery of a manually signed counterpart of this Agreement.

25. Recordation. Each of the Companies hereby authorizes and requests that the Register of Patents, Register of Trademarks, Register of Copyrights, the applicable Registrar at the Canadian Intellectual Property Office and any other applicable government officer record this Agreement.

26. Concerning the Administrative Agent. Cantor Fitzgerald Securities is entering into this Agreement solely in its capacity as Administrative Agent, pursuant to direction from the Required Lenders, and not in its individual or corporate capacity. The rights, privileges and immunities set forth in the Loan Agreement shall apply to the Administrative Agent's actions hereunder.
