PATENT ASSIGNMENT

This assignment is made by John Murray, an individual, having an address of 105 Texoma Terrace Rd., Denison, TX 75020, and Jon Saferstein, an individual, having an address of 10429 W. 79th St., Shawnee, KS 66214 (Assignors) to OTG, LLC, a limited liability company, having a place of business at 3312 W. 71st St., Prairie Village, KS 66208 (Assignee);

WHEREAS, Assignors have invented new, original and useful embodiments of an invention entitled, "Single Stage, Single Phase, Low Pressure Refrigeration System" (Invention) for which a United States Utility Patent Application will be filed, further identified by Cisko & Thomas' Docket No. 19-38758 (Patent Application);

WHEREAS, Assignors believe themselves to be the original inventors of a claimed invention in the Patent Application;

WHEREAS, the above-identified Patent Application was made or authorized to be made by Assignors; and,

WHEREAS, Assignee desires to acquire by formal, recordable assignment their entire right, title, and interest in and to said Invention, and said Patent Application in the United States and throughout the world.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignors hereby sell, assign, and transfer to Assignee, their entire rights, titles, and interest in and to said Invention, and said Patent Application for said Invention in the United States and throughout the world, including the exclusive right to file any provisional, non-provisional, divisional, continuation, continuation-in-part, reissue, foreign, or other application based on the Invention directly in the name of Assignee and to claim any

priority rights to which such applications are entitled under international conventions, treaties, or otherwise.

Further, Assignors agree that, upon request and without further compensation, but at no expense to Assignors, Assignors, their legal representatives, and assigns will do all lawful acts, including the execution of papers and the giving of testimony, that may be necessary or desirable for obtaining, sustaining, reissuing, or enforcing said Patent Application in the United States and throughout the world for said Invention, and for perfecting, recording, or maintaining the title of Assignee, its successors and assigns, to said Invention, and said Patent Application filed, and any patents granted for said Invention in the United States and throughout the world.

Assignors represent and warrant that they have not granted and will not grant to others any rights inconsistent with the rights granted herein.

Assignors authorize and request the Commissioner of Patents and Trademarks of the United States and of all foreign countries to issue any Patent granted for said Invention, whether on an application for said Invention, said Patent Application, or on any subsequently filed provisional, non-provisional, divisional, continuation, continuation-in-part, reissue, or other application, to Assignee, its successors and assigns, as the assignee of their entire interest in said Invention.
