ASSIGNMENT

WHEREAS

Miguel Ángel Giráldez López residing at Calle Becerreira 58, 36318 Vigo, Spain;

Miguel Ángel Fernández Maroto residing at Calle Aragón 147, Portal 1-2a, 36206 Vigo, Spain; and

Horst Franke c/o GKN Driveline Deutschland GmbH, Werk Mosel, Glauchauer Str. 38, 08058 Zwickau, Germany.

hereinafter referred to as Assignor(s), have invented an invention entitled:

“MACHINING BALL TRACKS AND GUIDING WEBS OF AN INNER JOINT PART”

which is set forth in United States Patent Application No. 16/342,290 filed on April 16, 2019 and identified with Attorney Docket No. 66967-0090;

and WHEREAS, GKN Driveline Deutschland GmbH, a German company having a place of business at Carl-Legien-Strasse 10, 63073 Offenbach, Germany and GKN Driveline Vigo SA, a Spanish company having a place of business at Avenida Citroen s/n, 36210 Vigo, Spain, (hereinafter jointly referred to as Assignees), are desirous of acquiring the entire right, title, and interest in and to the invention, the patent application, in all U.S. and/or foreign patent applications filed therefore, and/or in all patents that may be obtained therefore;

NOW, THEREFORE, in consideration of good and valuable consideration, the receipt of which is hereby acknowledged, the Assignor does hereby assign, transfer, and set over unto the Assignees, its successors, and assigns, the entire right, title, and interest in and to: the invention, in any form or embodiment thereof; the aforesaid patent application; any patent application in this or any foreign country for the invention, including any provisional patent application to which the aforesaid patent application claims priority and including the right to file international patent applications; and any patents or reissues or extensions thereof for the invention in this or any foreign country and any divisional, continuation, continuation-in-part or substitute applications which may be filed upon the invention in this or any foreign country;

AND Assignor(s) acknowledges an obligation of assignment of the invention and the patent application to the Assignees at the time the invention was made;

AND Assignor(s) hereby agrees that the Assignor(s), its successors, assigns or other legal representatives will at any time upon the request and at the expense of the Assignees, its successors, assigns, or other legal representatives, without undue delay and without payment or compensation by Assignees, execute and deliver any and all papers

and do all lawful acts that may be necessary or desirable to perfect the title to the invention, the patent application, and any U.S. and/or foreign patent applications and/or patents that may be obtained therefore;

AND Assignor(s) hereby authorizes and requests the Commissioner of Patents of the United States Patent & Trademark Office, and any official of any country foreign to the United States whose duty it is to issue patents, to issue any patent and any reissues and extensions thereof to the Assignees in accordance with this Assignment;

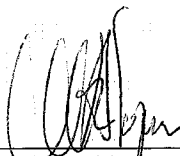

AND Assignor(s) hereby grants to the Assignees the full right to sue for and recover all profits and damages recoverable for past infringement of the invention, the patent application, and any U.S. and/or foreign patent applications or patents that may be obtained for the invention, for Assignees use and behalf and for the use and behalf of Assignees' successors, assigns and other legal representatives;

AND Assignor(s) hereby represents and warrants that the Assignor(s) has the full right to convey the entire interest of the invention and the patent application herein assigned and has not granted any rights inconsistent with the rights granted herein;

AND Assignor(s) hereby authorizes and requests any attorney or agent who has Power of Attorney with respect to the patent application, to insert above the filing date and application number of the above-identified patent application when the filing date and patent application number become known;

AND the Parties acknowledge that this Assignment may be signed by Assignors in counterparts.
