ASSIGNMENT

For good and valuable consideration, the receipt of which is hereby acknowledged, Nuance Communications Austria GmbH, an Austria corporation having a place of business at Triester Strasse 64, Wien, Austria A-1101, for itself, its assigns and legal representatives ("Assignor") hereby:

1. Sells, assigns and transfers to Nuance Communications, Inc., a Delaware corporation having a place of business at One Wayside Road, Burlington, MA 01803, its successors, assigns and legal representatives, all hereinafter referred to as the Assignee, its entire right, title and interest for the United States and all foreign countries, in and to any and all inventions and designs which are disclosed in any of the United States Letters Patents, foreign patents, or the patent applications in the United States or elsewhere identified on the attached Schedule A, and in and to all corresponding provisional, non-provisional, divisional, continuing, substitute, renewal, reissue and all other applications for Letters Patent, utility models, industrial designs or similar intellectual property rights which have been or shall be filed in the United States, internationally, and all foreign countries, including but not limited to China, Japan and Korea, on any of the inventions; and in and to all original and reissued patents which have been or shall be issued in the United States and all foreign countries on the inventions, including the right to apply for patent rights in each foreign country and all rights to priority, including the right to claim priority for China, Japan and Korea, as well as the right to sue in its own name and recover damages for past infringement of any United States Patent or foreign patent identified on Schedule A (and Assignor agrees, at the expense of the Assignee, to be joined as a plaintiff in any such suit if necessary);
2. Agrees that the Assignee may apply for and receive Letters Patent and utility model and industrial design registrations for the inventions in its own name; and when requested, without charge to but at the expense of the Assignee, agrees to carry out in good faith the intent and purpose of this assignment, by executing all such further assignments, powers of attorney and other papers, by communicating to the Assignee all facts known to it relating to the inventions and the history thereof, and generally by doing everything reasonably possible which the Assignee shall consider desirable for aiding in securing and maintaining proper protection for the inventions and for vesting title to the inventions and all applications for patents and all patents on the inventions, in the Assignee;
3. Requests the Director of the United States Patent and Trademark Office and non-US patent authorities to issue Letters Patents for any of the inventions to the Assignee;
4. Authorizes and requests Wolf, Greenfield & Sacks, P.C. to supply any missing patent/application identification information or correct any errors in the patent/application identification information provided in the attached Schedule A, whether discovered prior to or after recordation;
5. Covenants with the Assignee that no assignment, grant, mortgage, license or other agreement affecting the rights and property herein conveyed has been made to others by it and that full right to convey the same as herein expressed is possessed by it; and
6. Appoints Assignee, through its designee, its attorney-in-fact to execute, in its name and on its behalf, any and all documents required to effectuate this Assignment, specifically including, but not limited to, those documents specified above and any necessary corrective assignments.

This instrument is executed under seal and signed under the pains and penalties of perjury under the laws of the United States of America.
