PCT App. No.: PCT/US17/57300 (to be inserted after filing)
Titled: MODULAR POWER GENERATION FACILITIES USING SHIPPING CONTAINER-BASED MODULES
Inventors: Miles PAINE, Justin MOORE, Bobby FERRICK, Jeff COURLISS, Will DICKINSON, John SAUNDERS, and Bill BROWN
Filed on: October 19, 2017 (to be inserted after filing)

(hereinafter "Patent Properties");

WHEREAS,

**PowerSecure, Inc.
1609 Heritage Commerce Court
Wake Forest, NC 27587
USA**

(hereinafter "Assignee") is desirous of acquiring all rights, title, and interests in, to, and under the Invention and the Patent Properties, and in, to, and under any and all patents that have been or may be obtained for the Invention, together with all rights corresponding thereto;

NOW, THEREFORE, to all whom it may concern, be it known that, for and in consideration of the sum of One Dollar (\$1.00), and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, each Assignor has agreed to quitclaim, sell, assign, transfer and convey, and by these presents does hereby quitclaim, sell, assign, transfer and convey, unto Assignee any and all past, present and future right, title, and interest in, to and under:

- The Invention;
- The right and authorization to file any application for the Invention;
- Any and all applications for patent for the Invention that may be or have been filed in any and all countries, including the Patent Properties;
- Any and all patents that may be or have been obtained for the Invention in any and all countries;
- Any reissue, reexamination, extension, renewal, substitution, conversion, confirmation, division, continuation, nonprovisional, provisional, continuation-in-part and the like of any of the foregoing;
- Any application claiming priority to any of the foregoing;
- Any application from which any of the foregoing claims priority; and
- Any past or present right or cause of action arising with respect to any of the foregoing, including any right to sue for patent infringement, and any copyright in any embodiment of an Invention and any derivative right thereof,

(hereinafter collectively "Invention Rights").

FURTHERMORE,

Each Assignor hereby acknowledges that any and all Invention Rights related to any Invention already may have been under obligations of assignment already to Assignee and in fact may have already been assigned to Assignee, and that this "Assignment of Invention Rights" (hereinafter "Assignment") is being duly executed for at least the purposes of public recordation with the USPTO of Assignee's rights, title, and interests in the Invention Rights.

Each Assignor hereby covenants and agrees, and binds any and all heirs, administrators, legal representatives, nominees, and assigns, to assist and cooperate with Assignee, at Assignee's expense, in the preparation and prosecution of any application included within the Invention Rights and in the prosecution or defense of any interference, opposition, or other proceeding that may arise in connection with any application or patent included within the Invention Rights and, further, to execute and deliver to Assignee any and all petitions, oaths, assignments, or other papers or instruments that may be requested by Assignee in connection herewith.

Effective with respect to each Invention at least as early as the time of conception of each such Invention, each Assignor hereby authorizes and empowers Assignee to invoke and claim for any application or patent included within the Invention Rights the benefit of any rights to which such Assignor might be entitled

under international law or under the laws of any particular country, and to invoke and claim such rights without further written or oral authorization from such Assignor.

Each Assignor hereby consents and agrees that a copy of this Assignment shall be deemed a full legal and formal equivalent of any assignment, consent to file, or like document that may be required in any particular country for any purpose and, more particularly, in proof of the right of Assignee to claim the aforesaid benefit of the right of priority and the right to file for patent.

Each Assignor covenants and agrees that this Assignment and all the terms thereof shall inure to the benefit of the successors, assigns, legal representatives, and nominees of Assignee, without further written or oral authorization from such Assignor.

Each Assignor further hereby represents and warrants that Assignor is an original inventor of the Invention; and such Assignor has reviewed and understood the contents of the Patent Properties.

Finally, each Assignor hereby authorizes and requests the Director of the United States Patent & Trademark Office to issue any patent included within the Invention Rights to Assignee.

This Assignment is governed by and shall be construed in accordance with the laws of North Carolina.
