**Intellectual Property Rights** means the intellectual property rights specified in the Details and includes all intellectual, industrial and other proprietary rights in and related to the project specified in the Details, including, without limitation:

- a. patents, patent applications, utility models, copyrights, registered or unregistered trademarks and service marks, trade names, brand names, indications of source or appellations of origin, registered and/or unregistered designs and commercial names and designations;
- b. all inventions, discoveries, trade secrets, and confidential information;
- c. all other rights resulting from intellectual activity in the industrial, scientific, literary and artistic fields whether industrial or commercial;
- d. all letters patent, deeds of grant, certificates or documents of title for anything referred to in paragraphs a, b or c of this definition, including the right to apply for any such rights, and all media in which anything referred to in those paragraphs is stored or embodied; and
- e. all enhancements, modifications or developments to anything referred to in paragraphs a- d.

**Project** means the project specified in the Details.

#### 2. Confirmation of assignment

With effect on and from the date of the invention of the Project, in return for valuable consideration, the receipt and sufficiency of which is acknowledged:

- a. the Assignor confirms the assignment to the Assignee of all right, title and interest in and to the Intellectual Property Rights; and

- b. to the extent any Intellectual Property Rights haven't been assigned, the Assignor hereby assigns to the Assignee the Intellectual Property Rights, including:
  - i. the right to apply anywhere in the world for and obtain registered intellectual property rights in respect of the Intellectual Property Rights, including patents and designs;
  - ii. all benefits arising from any patent applied for or granted in relation to the Intellectual Property Rights;
  - iii. any registered or unregistered designs, design rights or similar rights and all benefits arising from such rights;
  - iv. any other intellectual property rights of the Assignor in the Project; and
  - v. the right to sue for past infringement and the right to enjoy for its sole benefit the reward of such action, including any damages or account of profits, and to claim any equitable or other remedies at law.

**3. Further assurances**

3.1 The Assignor agrees to do all things and execute and deliver all deeds, instruments, transfers or other documents as may be necessary or desirable to give full effect to the provisions of this deed and the transactions contemplated by it, including all things necessary for the making of patent and design applications and their grant, and all things necessary to assist with the enforcement and validity of patents, patent applications, designs and design applications, including in any infringement, opposition, revocation proceedings or the like.

3.2 The Assignor:

- a. authorises and requests that the Commissioner of Patents issue any and all letters patent in Australia and other countries resulting from said applications or any division or divisions of continuing or reissue applications to the Assignee, as Assignee of their entire interest; and
- b. covenants that it has full rights to convey the entire interest herein assigned, and that it has not executed, and will not execute, any agreement in conflict with this deed.

**4. Miscellaneous**

- a. Amendments and supplements to this deed must be in writing and executed by all parties.
- b. This deed may be executed in counterparts. All executed counterparts constitute one document.
- c. The Assignor acknowledges and agrees that the Assignee may assign, license or transfer any and all of its right, title and interest under this deed.
- d. This deed is governed by the laws of New South Wales and each party irrevocably submits to the non-exclusive jurisdiction of the courts of New South Wales.
