CONFIRMATORY ASSIGNMENT

This Confirmatory Assignment is made effective 26 Nov 2013, between:

Alain Giraud of 6 rue René Razel, Bâtiment K, 91 400 Saclay, France (hereinafter referred to as the Assignor); and

Mondelēz France R&D SAS, (registered in France) of 6 rue René Razel, Bâtiment K, 91 400 Saclay, France (hereinafter referred to as the Assignee).

The Assignor is the Inventor of an invention relating to a cartonboard package looking like a flow-wrap box (Mondelēz references: 81562077, 81419910 and 81453189) (hereinafter referred to as the Invention) and for which patent applications have been filed under application numbers GB1410937.5, GB1320803.8 and PCT/IB2014/002795 (hereinafter referred to as the Patents). The Invention and Patents belong to the Assignee for all purposes, under a contract of employment between the Assignor and Assignee.

For the avoidance of doubt it is confirmed that any and all rights in the Invention or Patents which do not or may subsequently be held not to belong to the Assignee are assigned to the Assignee including the right to make application for patent in any countries including application under the European Patent Convention and the Patent Cooperation Treaty for the said Invention together with the right to claim priority under the International (Paris) Convention for the benefit of the Assignee.

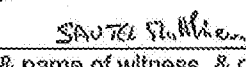

In consideration of the sum of Ten Pounds Sterling (£10) paid to the Assignor by the Assignee (receipt of which is hereby acknowledged by the Assignor) the Assignor assigned to the Assignee the Invention and Patents referred to above and all rights arising therefrom, including the right to file patent applications in any country in respect of the Invention and Patents, and including the right to bring proceedings for any previous infringement of the rights assigned by this Assignment.

It is also hereby agreed that the Assignor will, at the expense of the Assignee, execute all such documents, and do all such things, as may reasonably be required for the Assignee (or the nominee of the Assignee) to enjoy the full benefit of the property and rights hereby assigned, including (if required to do so by the Assignee) applying for patents in the name of the Assignor.
