ASSIGNMENT

This Assignment is made by **Deepak Gupta** of Transpacks Technologies Pvt. Ltd., 97, Vijay Nagar, Kanpur Road, Lucknow-226023, Uttar Pradesh, India, and **Ankit Nagar** of HSB 148, Unit of Nanoscience Department of Chemistry Indian Institute of Technology Madras, Chennai-600 036, Tamil Nadu, India ("Assignor(s)").

WHEREAS, Assignor(s) have invented new and useful invention(s) disclosed in an application for Letters Patent entitled "**ANTI-COUNTERFEITING MARK WITH 3-D FEATURES**", identified by Attorney Docket No. TRANS1100 (United States Patent Application No. 16/125,067, filed September 7, 2018); and

WHEREAS, the parties desire to have a recordable instrument assigning the entire right, title and interest in and to said invention(s) and any and all improvements thereof disclosed in said application ("Invention"), said application, on any subsequently filed divisional, continuation, continuation-in-part, re-examination, reissue or other application for protection ("Applications"), and any patents, invention registrations or other forms of protection ("Patents") that may be granted for said Invention from any Applications in the United States and throughout the world;

NOW, THEREFORE, in accordance with the obligations to assign the Invention and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor(s) hereby sell, assign, and transfer to **Transpacks Technologies Private Limited**, having a principal place of business at 97 Vijay Nagar, Kanpur Road, Lucknow 226023, Uttar Pradesh, India (hereinafter referred to as "Assignee"), the entire right, title, and interest in and to said Invention, said Applications and any Patents that may be granted for said Invention in the United States and throughout the world, including the right to file any applications directly in the name of the Assignee and to claim for any such applications any priority rights to which such applications are entitled, the right to prosecute infringers of any Patents that may be granted for said Invention in the United States and throughout the world and any provisional or other right to recover damages, including royalties, for prior infringements of any of said Applications or Patents that may be granted for said Invention in the United States and throughout the world.

Assignor(s) agree that, upon request and without further compensation, but at no expense to Assignor(s), they and/or their legal representatives and assigns will do all lawful acts, including the execution of papers and the giving of testimony, that may be necessary or desirable for obtaining, sustaining, reissuing, or enforcing the Patents in the United States and throughout the world for said Invention, and for perfecting, recording, or maintaining the title of

Assignee, its successors and assigns, to said Invention, said application, and any Patents granted for said Invention in the United States and throughout the world.

Assignor(s) represent and warrant that they have not granted and will not grant to others any rights inconsistent with the rights granted herein.

Assignor(s) authorize and request the Commissioner for Patents of the United States and of all foreign countries to issue any Patents granted for said Invention, whether on said application or on any subsequently filed divisional, continuation, continuation-in-part, re-examination, reissue or other application, to Assignee, its successors and assigns, as the assignee of the entire interest in said Invention.
