PATENT, TRADEMARK, AND INTELLECTUAL PROPERTY RIGHTS ASSIGNMENT

THIS PATENT, TRADEMARK, AND INTELLECTUAL PROPERTY ASSIGNMENT is effective as of January 31, 2014.

WHEREAS, the bankruptcy estate of PIXELOPTICS, INC., a Delaware corporation (the "**Assignor**"), is the owner of the patents and patent applications listed on Schedule A hereto (the "**Patents**") and the trademarks and trademark applications listed on Schedule A (the "**Trademarks**") and those Intellectual Property Rights defined in the Agreement (further defined below) including those listed on Schedule A;

WHEREAS, JEOFFREY L. BURTCH as chapter 7 trustee (the "**Trustee**") for the Assignor has agreed to transfer the Intellectual Property Rights as set forth in the Asset Purchase Agreement dated as of December 13, 2013 (the "**Agreement**"), including Assignor rights in and to the Patents and Trademarks as set forth in the Agreement to HPO ASSETS LLC (as designee of Horizon Technology Finance Corporation), a Delaware limited liability company located at 312 Farmington Avenue, Farmington, CT 06032 or its designee (the "**Assignee**"), and Assignee has agreed to accept such assignment, on the terms and conditions set forth in the Agreement;

WHEREAS, Assignor is presently the debtor in a pending chapter 7 bankruptcy case filed pursuant to Title 11 of the United States Code, 11 U.S.C. § 101, et seq. (the "**Bankruptcy Code**") in the United States Bankruptcy Court for the District of Delaware (the "**Bankruptcy Court**"), case number 13-12875 (the "**Bankruptcy Case**").

WHEREAS, the Bankruptcy Court appointed the Trustee as the chapter 7 trustee for the Assignor. Pursuant to sections 541 and 704 of the Bankruptcy Code, upon the commencement of the Bankruptcy Case, all property of the Assignor became assets of the Assignor's chapter 7 estate, under the control of the Trustee.

WHEREAS, pursuant to the Trustee's Motion for Entry of (I) an Order (A) Approving Bidding Procedures in Connection With Sale of Substantially all of the Estate's Assets, (B) Scheduling an Auction and Hearing to Consider the Proposed Sale and Approving the Form and Manner of Notice Thereof; and (II) an Order (A) Approving the Sale, (B) Authorizing the Assumption and Assignment of Executory Contracts and Unexpired Leases, and (C) Granting Certain Related Relief, dated December 13, 2013 (Docket No. 37), the Trustee sought approval from the Bankruptcy Court to sell substantially all of Assignor's assets to, and enter into the Asset Purchase Agreement (as defined below) with, Horizon Technology Finance Corporation, or its designee.

WHEREAS, after a hearing on December 19, 2013, the Bankruptcy Court entered an order (Docket No. 57) authorizing the Trustee and Horizon Technology Finance Corporation, or its designee, to enter into the Agreement and take other actions related thereto, subject to receipt of higher and better offers.

WHEREAS, on January 23, 2014, the Bankruptcy Court approved the sale to Assignee pursuant to the Agreement, except for certain "Contested Patents" as set forth on Schedule B hereto (the "Contested Patents").

WHEREAS, the parties wish to herein memorialize said assignment, transfer and sale of the Patents and Trademarks (except for the Contested Patents) to Assignee in a form for recording in the United States Patent and Trademark Office and non-US counterparts thereof in non-US jurisdictions which exercise authority over any of the Intellectual Property Rights including the Patents and Trademarks.

NOW, THEREFORE, TO ALL WHOM IT MAY CONCERN, be it known that for good and valuable consideration, the receipt and legal sufficiency of which is hereby acknowledged, the Trustee hereby sells, assigns, transfers, and conveys to Assignee, all right, title and interest in and to the Intellectual Property Rights (except for the Contested Patents), including the Patents, and any continuations, continuations-in-part, divisions, reissues, reexaminations, extensions, and foreign patents and patent applications thereof, and any rights to file applications claiming the benefit of one or more of the Intellectual Property Rights including the Patents and receive patents that issue from said applications and from said applications and from applications included in the Patents and patent applications and pending inventions of Intellectual Property Rights as yet unprepared or unfiled, together with all claims for past and future damages by reason of infringement of the same, and together with the right to sue for past and future damages;

AND, the Trustee hereby assigns, transfers, conveys and delivers to Assignee and its successors and assigns, all of its right, title and interest throughout the world in, to and under the Trademarks, all goodwill associated therewith or symbolized thereby, all common law rights thereto, all registrations that have been or may be granted thereon, all applications for registration thereof, all records and files relating to said Trademarks and all foreign counterparts thereof, together with the right to sue and recover damages for future or past infringements thereof and to fully and entirely stand in the place of the Trustee in all matters related thereto.

AND, the Trustee hereby requests the Director of the United States Patent and Trademark Office (the "**Director**"), as well as his or her non-US counterparts in the non-US jurisdictions which exercise authority over any of the Intellectual Property Rights including the Patents and Trademarks (except for the Contested Patents) to record this Patent, Trademark and Intellectual Property Rights Assignment. The Trustee hereby further requests the Director and his or her non-US counterparts to issue any and all patents, trademarks, or other intellectual property resulting from Intellectual Property Rights, inventions, Patents or from applications claiming the benefit of one or more of the Intellectual Property Rights including the Patents and Trademarks to Assignee as assignee of the entire interest therein.

The transfers contemplated by this instrument are pursuant and subject to the terms and conditions of the Agreement and any order of the Bankruptcy Court approving the Agreement, and shall be made on an "as is where is" basis with all faults and specifically and expressly without any warranties, representations, or guarantees, either express or implied, of any kind or nature of or on behalf of the Trustee. This instrument shall not be interpreted to impose any obligations upon the Trustee beyond those contained in the Agreement.

At any time prior to the closing of the Bankruptcy Case, and from time to time at Assignee's request, the Trustee agrees to execute further documents and instruments and to do such other acts as may be reasonably necessary or reasonably requested by Assignee, at Assignee's expense, to more effectively vest full title in and to the Patents and Trademarks in the
