COMBINATION DECLARATION AND ASSIGNMENT (37 CFR 1.63(e)) FOR UTILITY OR DESIGN APPLICATION USING AN APPLICATION DATA SHEET (37 CFR 1.76)

Title of Invention

MULTI-COLOURED MILLING BLANK FOR IMPLANT-SUPPORTED DENTAL PROSTHETIC RESTORATIONS

DECLARATION

As a below named inventor, I hereby declare that:

This declaration is directed to U.S. Patent Application Serial No. 16/330,558, filed on March 5, 2019, as a U.S. National Stage application of PCT International Patent Application Serial No. PCT/EP2017/071974, claiming priority of German Patent Application No. 10 2016 116 546.6 filed September 5, 2016.

The above-identified application was made or authorized to be made by me.

I believe that I am the original inventor or an original joint inventor of a claimed invention in the application.

I hereby state that I have reviewed and understand the contents of the above-identified application, including the claims, as amended by any amendment specifically referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56, including for continuation-in-part applications, material information which became available between the filing date of the prior application and the national or PCT international filing date of the continuation-in-part application.

I hereby acknowledge that any willful false statement made in this declaration is punishable under 18 U.S.C. 1001 by fine or imprisonment of not more than five (5) years, or both.

ASSIGNMENT

WHEREAS, we, Uwe Böhm of Bad Homburg, Germany and Mario Beyer of Bad Homburg, Germany (hereinafter "Assignors"), have invented certain new and useful improvements in MULTI-COLOURED MILLING BLANK FOR IMPLANT-SUPPORTED DENTAL PROSTHETIC RESTORATIONS (hereinafter "Invention") for which application for a U.S. Patent was made on March 5, 2019 as Serial No. 16/330,558 (hereinafter "Application"), and claims priority to International Patent Application No. PCT/EP2017/071974 filed September 1, 2017, which claims priority to German Patent Application No. 102016116546.8 filed September 5, 2016 (hereinafter "Applications").

AND, WHEREAS, Kulzer GmbH, a corporation duly organized and existing under the laws of Germany, having its principal office and place of business at Leipziger Str. 2, Hanau 63450 Germany (hereinafter "Assignee"), is desirous of acquiring an interest therein.

NOW, THEREFORE, To Whom It May Concern, be it known that for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignors have sold and by these presents do hereby sell, assign, transfer, and convey unto the Assignee, its successors, and assigns, their entire right, title, and interest in and to the Invention and Applications, and in and to any and all U.S. and foreign patent applications filed on the Invention, and in and to any and all continuations, continuations-in-part, or divisions thereof, and in and to any and all Patents of the United States of America and all foreign countries or reissues thereof which may be granted therefor or thereon (hereinafter, "Patents"), for the full end of the term for which said Patents may be granted, together with his right to claim the priority of the Applications in all countries in accordance with the Paris Convention, the Patent Cooperation Treaty, or other agreement or national law under which priority can be claimed, the same to be held and enjoyed by said Assignee, its successors, and assigns, as fully and entirely as the same would have been held and enjoyed by Assignors if this Assignment and sale had not been made. It is expressly agreed by both Assignors and Assignee that this Assignment fully conveys and transfers from Assignors to Assignee the right to sue for any and all patent infringement occurring prior to the date of this Assignment.

Assignors hereby request that said Patents be issued in accordance with this Assignment.

Assignors further covenant and agree that, at the time of the execution and delivery of these presents, Assignors possess the unencumbered right and authority to make this Assignment.

Assignors further covenant and agree, and likewise bind their heirs, legal representatives, and assigns, to promptly communicate to said Assignee or its representatives any facts known to them relating to the Invention, to testify and/or assist as requested by the Assignee in any interference or legal proceedings involving the Applications, Patents, or Invention, including cooperating in any enforcement proceedings involving the Applications, Patents, or Invention, to execute any additional papers which may be requested to confirm the right of the Assignee, its representatives, successors, and assigns to secure patent or similar protection for the Invention in all countries and to vest in the Assignee complete title to the Invention and Patents, without further compensation, but at the expense of said Assignee, its successors, assigns, and other legal representatives.
