Assignor hereby authorizes the Assistant Commissioner for Patents of the United States and the empowered officials of all other governments, in accordance with this Assignment: (i) to transfer all Patent Applications and Patents to the Assignee as assignee of all right, title and interest therein, or otherwise as the Assignee may direct; and (ii) to issue all patents for the Patent Applications and Inventions to the Assignee.

Assignor hereby represents and warrants that to its knowledge there are no rights or interests outstanding that are inconsistent with the rights and interests granted herein, and that Assignor will not execute any instrument or grant, or transfer any rights or interests that are inconsistent with the rights and interests granted herein.
