(the "Assignor"), in favor of Core Health & Fitness, LLC, a Nevada limited liability company, having its principal offices at 4400 NE 77th Avenue, Vancouver, Washington 98662 (the "Assignee").

WHEREAS, pursuant to the terms of the Asset Purchase Agreement entered into as of July 18, 2014, wherein, among other things, Assignee has agreed to buy and the Assignor has agreed to sell the property referred to in that Asset Purchase Agreement as the "Company IP";

WHEREAS, the Company IP is comprised of, among other things, patents, patent applications and all reissues, divisionals, renewals, extensions, provisionals, continuations and continuations-in-part thereof;

WHEREAS, the Assignee and the Assignor desire to effectuate and make known the transfer the Patent Applications and Patents that are a part of the Company IP, specifically including, but not limited to, those Patent Applications and Patents set forth in Schedule 1 (collectively, the "Assigned Patents");

NOW, THEREFORE, the Assignor, for good and valuable consideration, the receipt and sufficiency of which Assignor hereby acknowledges, has sold, assigned and transferred, and sells, assigns and transfers to the Assignee, free from all encumbrances, all right, title and interest in and to:

- (1) The inventions disclosed in the Assigned Patents and the Assigned Patents, all divisions, reissues, reexaminations, substitutions, continuations, continuation-in-part, and extensions thereof, and all Patents which may be granted thereon and all

reissues, renewals, and extensions thereof, specifically, the patents identified in Schedule A.

The rights conveyed by this Assignment further include all claims for damages by reason of past infringement and the right to sue for and collect damages for past infringement.

Assignor hereby authorizes the Assistant Commissioner for Patents of the United States and the empowered officials of all other governments, in accordance with this Assignment: (i) to transfer all Patent Applications and Patents to the Assignee as assignee of all right, title and interest therein, or otherwise as the Assignee may direct; and (ii) to issue all patents for the Patent Applications and Inventions to the Assignee.

Assignor hereby represents and warrants that to its knowledge there are no rights or interests outstanding that are inconsistent with the rights and interests granted herein, and that Assignor will not execute any instrument or grant, or transfer any rights or interests, that are inconsistent with the rights and interests granted herein. Assignor agrees to execute and deliver to the Assignee any further documents or instruments and do any and all further acts that Assignee may deem necessary in order to: (i) file applications relating to the Applications in any country where the Assignee may elect and be entitled to file such applications, (ii) vest in the Assignee the title herein conveyed or intended so to be, (iii) enable such title to be recorded in the United States and foreign countries where such application or applications may be filed, or (iv) otherwise aid Assignee to obtain and enforce proper patent protection in all countries where the Assignee so elects.

Assignor covenants and agrees, in consideration of the premises, that Assignor will at any time upon request of the Assignee communicate to the Assignee any facts relating to the Applications and the known history thereof, and provide any documents
