## MEDTRONIC PATENT ASSIGNMENT

**Medtronic Ardian LLC** (formerly known as Ardian, Inc.), a Delaware limited liability company with its registered address at 1209 Orange Street, Wilmington, State of Delaware, USA, registered with the Delaware Secretary of State under File Number 3713062 (the "Assignor"), has delivered this instrument signed by Assignor to enable **Medtronic Ardian Luxembourg S.à r.l.**, a private limited liability company (*société à responsabilité limitée*) governed by the laws of the Grand-Duchy of Luxembourg, having its registered office at 102, rue des Maraîchers, L-2124 Luxembourg, Grand-Duchy of Luxembourg, and registered with the Luxembourg Trade and Companies Register under number 158.983 (the "Assignee") to file it with any appropriate governmental agency to indicate ownership of the intellectual property described below and for other purposes set forth in this instrument.

1. For good and valuable consideration, receipt of which the Assignor acknowledges, and by signing and delivering this instrument, the Assignor assigns, transfers, conveys, and delivers to the Assignee legal title held by the Assignor to:

(a) the patents, patent applications and invention disclosures specifically listed in Annex A to this Patent Assignment; and

(b) the following properties and rights with respect to all patents and patent applications so listed in Annex A:

(i) any patents in Europe, the United States of America and Japan and patent applications that have been or may be granted or filed, respectively, with respect to those inventions, including without limitation all foreign patents that may claim priority based on and correspond to the patents listed in Annex A, and

(ii) all divisions, renewals, reissues, continuations, extensions, and (if filed by or for Assignee) continuations-in-part of the foregoing patents.

2. The foregoing assignment of legal title will apply to the full end of the terms of the patents listed above as fully as the Assignor would have held the same in the absence of this assignment.

3. This Patent Assignment is irrevocable and effective upon its execution by the Assignor.

4. The validity, construction and enforceability of this Patent Assignment shall be governed by the laws of State of Delaware, excluding its conflict of laws rules.

[signature page follows]

The undersigned have signed this Medtronic Patent Assignment on February 3  
2012.
