ASSIGNMENT

This Assignment is made by Simon WALKER, having an address of 203 – 11782 Hammersmith Way, Richmond, British Columbia, CANADA, V7A 5E2 (the “Assignor”) to Peak Innovations Inc., having a place of business at 203 – 11782 Hammersmith Way, Richmond, British Columbia, CANADA, V7A 5E2 (the “Assignee”);

WHEREAS, the Assignor has invented a new and useful invention entitled SHELVING SYSTEM (the “Invention”), which is disclosed in the following applications:

- (1) United States Provisional Patent Application No. 62/435,200 filed December 16, 2016 entitled SHELVING UNIT AND SUPPORT FOR SAME;
- (2) United States Provisional Patent Application No. 62/481,042 filed April 3, 2017 entitled SHELVING UNIT AND SUPPORT FOR SAME;
- (3) United States Provisional Patent Application No. 62/549,840 filed August 24, 2017 entitled SHELVING UNIT;
- (4) United States Provisional Patent Application No. 62/551,642 filed August 29, 2017 entitled SHELVING UNIT WITH TRIANGULAR UPRIGHT; and
- (5) United States Provisional Patent Application No. 62/565,987 filed September 29, 2017 entitled SHELVING UNIT AND SUPPORT FOR SAME;

and for which an international PCT application will be shortly filed;

WHEREAS, the Assignor believes himself to be the first and original inventor of the Invention; and

WHEREAS, the Assignee desires to acquire by formal, recordable assignment the entire worldwide right, title and interest in and to said Invention, said applications, and any patent(s) that may be granted for said Invention anywhere in the world;

NOW, THEREFORE, in consideration of the sum of Ten Dollars (\$10.00) and of other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Assignor hereby sells, assigns, and transfers to the Assignee, the entire worldwide right, title and interest in and to the Invention, said applications, any applications in any countries for the Invention and any patent(s) that may be granted for the Invention anywhere in the world, including the right to file foreign applications directly in the name of the Assignee and to claim for any such foreign applications any priority rights to which such applications are entitled under international conventions, treaties or otherwise.

Further, the Assignor agrees that, upon request and without further compensation, but at no expense to the Assignor, he and his legal representative(s) and assigns will do all lawful acts, including the execution of papers and the giving of testimony, that may be necessary or desirable for obtaining, sustaining, reissuing or enforcing any patent(s) as may issue anywhere in the world for said Invention, and for perfecting, recording or maintaining the title of the Assignee, its successors and assigns, to the Invention, said applications, and any patent(s) granted for the Invention anywhere in the world.

Further, the Assignor agrees to provide, upon request, copies of all documents pertaining to the conception or development of the Invention.

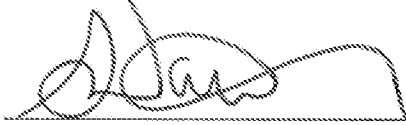

The Assignor represents and warrants that he has not granted and will not grant to any other any rights inconsistent with the rights granted herein.

The Assignors authorize and request the Commissioner of Patents and Trademarks of the United States and of all foreign countries or patent organizations to issue any patent(s) granted for the Invention, whether on said applications or on any subsequently filed regular, division, continuation, continuation-in-part, or reissue applications, to the Assignee, its successors and assigns, as the assignee of the entire interest in the Invention.

IN WITNESS WHEREOF, the Assignor has executed this Assignment on the date written herein below.
