ASSIGNMENT

Whereas, Bio Clinical Development Inc, a Michigan corporation, with mailing address at 38955 Hills Tech Dr., Farmington Hills, MI 48331 (hereinafter referred to as Assignor) have invented and/or created certain new and useful developments and/or improvements identified in the patents and patent applications listed in Schedule A.

Whereas, International IP Holdings LLC, a limited liability company organized in the State of Michigan, having a mailing address of 39533 Woodward Ave, Ste 318, Bloomfield Hills, MI 48304, or its designee who may be designated in a separate writing referencing this assignment (hereinafter referred to as Assignee) is desirous of acquiring the entire right, title, and interest, in and to said patents and patent applications and related Intellectual Property that may be granted therefor in the United States and in any and all foreign countries.

NOW THEREFORE, in consideration of the promises and mutual covenants and agreements contained herein and for other good and valuable consideration receipt of which is hereby acknowledged, Assignor hereby sells, assigns, and transfers unto Assignee the full and exclusive right, title, and interest in and to said patents and patent applications and any related intellectual property in the United States and in all foreign countries and in and to all divisions, reissues, continuations, continuations-in-part, substitutions, renewals, reexaminations, extensions, and trade secrets thereof including the full right to claim for any such application the benefits of the International Convention and the entire right to sue for and recover all profits and damages and all other remedies recoverable for past, present, and future infringement of the same in their own name.

Assignee, its successors, assigns, or other legal representatives shall have the right to obtain and hold as the owner of the entire right, title, and interest in and to intellectual property rights including, but not limited to, patents, trade secrets, and trademarks, which may be available or become available related to the patents and patent applications.

It is hereby covenanted that Assignor has the full right to convey the entire interest herein assigned, and that Assignor has not executed and will not execute any agreement in conflict herewith

Further, Assignor agrees to communicate to Assignee or its representative any facts known to Assignor respecting said invention, and to testify in any legal proceeding, to sign all lawful papers, to execute all divisional, continuation, continuation-in-part, substitution, renewal, reexamination, and reissue applications, to execute all necessary assignment papers to cause off of said Letters Patents or other intellectual property rights to be issued to Assignee, to make all rightful oaths and generally do everything possible to aid Assignee, its successors, assigns, or other legal representatives, to obtain and enforce proper protection for said patents and patent applicatuions in the United States and in all foreign countries.

In testimony whereof, I have hereunto set my hand on the date appearing next to my signature:
