**ASSIGNMENT AND AGREEMENT**

WHEREAS we, Daniel P. Predick of 3323 N. Paulina, Unit 3D, Chicago, Illinois 60657, and Garrett D. Lauf of 125 Briarwood Drive, Elgin, Illinois 60120, both of the United States of America (and hereinafter referred to as "Inventors"), do hereby execute this Assignment and Agreement.

NOW THEREFORE, for value received, Inventors do hereby sell, assign and transfer to Centric Medical, LLC, a limited liability company of the State of Delaware, having an office at 13951 S. Quality Drive, Huntley, Illinois 60142, United States, (hereinafter referred to as "Centric Medical") and its successors, assigns and/or legal representatives, the entire right, title and interest, for the United States of America, in and to certain inventions related to IMPLANT FOR BONE FIXATION, attorney docket number LSP100CIP, and described in United States Patent Application serial number 14/819,761 filed August 6, 2015, and any and all corresponding non-provisional patent applications claiming the benefit of the aforesaid United States Patent Application, and all the rights and privileges in any Letters Patent resulting from any and all said patent applications; and we Inventors also concurrently hereby sell, assign and transfer to Centric Medical the entire right, title and interest in and to said inventions for all countries foreign to the United States, including all rights of priority arising from the application aforesaid, and all the rights and privileges under any and all forms of protection, including Letters Patent, that may be granted in said countries foreign to the United States for said inventions.

Inventors authorize Centric Medical to make application for such protection in its own name and maintain such protection in any and all countries foreign to the United States and to invoke and claim for any application for patent or other form of protection for said inventions, without further authorization from us, any and all benefits, including the right of priority provided by any and all treaties, conventions, or agreements.

Inventors hereby consent that a copy of this assignment shall be deemed a full legal and formal equivalent of any document which may be required in any country in proof of the right of Centric Medical to apply for patent or other form of protection for said inventions and to claim the aforesaid benefit of the right of priority.

Inventors request that any and all patents for said inventions be issued to Centric Medical in the United States and in all countries foreign to the United States or to such nominees as Centric Medical may designate.

Inventors agree that, when requested, we shall, without charge to Centric Medical, but at its expense, sign all papers, and do all acts which may be necessary, desirable or convenient in connection with said applications, patents, or other forms of protection.
