ASSIGNMENT

Whereas, the undersigned inventor has made certain inventions and ornamental designs (herein referred to as the "Invention") disclosed in a U.S. patent identified by U.S. Patent No. 9,677,230 and Attorney Docket No. Terstrip-0101 and entitled:

"Wide Swath Offset Concrete Screed".

Whereas, Dragon Screed LLC ("Assignee"), a corporation of Illinois having a place of business at 6930 Horseshoe Valley Road, Quincy, Illinois 62305, desires to acquire, and the undersigned inventor desires to grant to Assignee, the entire worldwide right, title, and interest in and to said Invention including any and all patent applications and Letters Patent(s) that may be granted for said Invention in the United States of America and any foreign country.

Now, therefore, for good and valuable consideration, the receipt and sufficiency thereof being hereby acknowledged, the undersigned inventor ("Assignor") hereby sells, assigns, or otherwise transfers, or acknowledges having previously sold, assigned, or otherwise transferred, unto said Assignee the full and exclusive world-wide rights to the said Invention, including all rights in all foreign countries and the United States of America, its territories, dependencies, and possessions, and the entire right, title, and interest in and to any and all Letters Patent(s) which may be granted therefor in all foreign countries and the United States of America, and to any and all divisions, reissues, continuations, conversions, and extensions thereof for the full term or terms for which the same may be granted.

The undersigned Assignor acknowledges their existing and ongoing obligations to sell, assign, and transfer the rights under this Assignment to Assignee and is unaware of any reason preventing the full and unencumbered right to sell, assign, and transfer the rights hereby sold, assigned, and transferred.

The undersigned Assignor agrees to execute all papers necessary in connection with any separate patent application(s), including assignment(s), for the Invention as the Assignee may deem necessary or expedient in the United States of America and any foreign country. The undersigned agrees to execute all papers and documents and to perform any act which may be needed in connection with the patent application(s) associated with this Assignment.

This Assignment is governed by the substantive laws of the State of Illinois, and any disputes will be resolved in an Illinois state court or a federal court sited in Illinois.

I, the undersigned, declare under penalty of perjury that the foregoing is true and correct.
