## TRADEMARK AND PATENT ASSIGNMENT

This Trademark and Patent Assignment (the "Assignment") is made and entered into on June 6, 2019, by and between Amplexor, Inc., a Delaware corporation having offices at 625 Whitetail Blvd, River Falls, WI 54022 ("Assignor"), and AMPLEXOR International SA, a Luxembourg Societe Anonyme having offices at 55, rue de Luxembourg, L-8077 Bertrange, Luxembourg ("Assignee").

### I. TRADEMARKS

WHEREAS, Assignor owns all right, title and interest in and to the trademarks and trademark registrations listed in Exhibit A (collectively, the "Marks"), together with the goodwill of the business connected with and symbolized by the Marks;

WHEREAS, Assignor desires to assign, and Assignee desires to accept and acquire, all of Assignor's right, title and interest in and to the Marks.

NOW, THEREFORE, for one dollar (\$1.00) and other good and valuable consideration, the receipt and adequacy of which are acknowledged, the parties hereby agree as set forth below.

Assignor hereby assigns, transfers and conveys to Assignee its entire right, title, interest in and to the Marks together with the accompanying goodwill (including, without limitation, the right to renew the associated registrations, the right to apply for trademark registrations based in whole or in part upon the Marks, and any priority right that may arise from the Marks), and the right to sue for, and recover for, any past infringements thereof, the same to be held and enjoyed by Assignee as fully and entirely as said interest could have been held and enjoyed by Assignor had this assignment, transfer and conveyance not been made.

Assignor agrees to further execute any documents reasonably required by Assignee to effect this Assignment or to confirm Assignee's ownership of the Marks.

### II. PATENT

WHEREAS, Assignor owns all right, title and interest in and to U.S. Patent No. 8,050,906, titled SYSTEMS AND METHODS FOR TRANSLATING TEXT, filed June 1, 2003 (the "Patent");

WHEREAS, Assignor desires to assign, and Assignee desires to accept and acquire, all of Assignor's right, title and interest in and to the Patent.

NOW, THEREFORE, for one dollar (\$1.00) and other good and valuable consideration, the receipt and adequacy of which are acknowledged, the parties hereby agree as set forth below.

Assignor hereby assigns, transfers and conveys to Assignee its entire right, title and interest in and to the Patent including any reissues, reexaminations and extensions to be obtained therefor in the United States and all foreign countries (the "Letters Patent") including all priority rights and all rights to claim priority; and Assignor further agrees to cooperate with the Assignee hereunder in the obtaining and sustaining of any and all such Letters Patent.

Assignor hereby agrees to further execute all documents necessary in connection with any interference, post-grant proceeding, third party challenge, or patent enforcement action (judicial or otherwise) related to the Patent, reissue, or reexamination applications, and to cooperate to the best of the ability of Assignor in preparing and executing any such papers and giving and producing evidence in support thereof. Assignor agrees to perform any affirmative acts to obtain said Letters Patent of the United States or foreign country and vest in Assignee all rights therein, including the right to sue for, and recover for, any past infringements thereof, whereby the Letters Patent will be held and enjoyed by Assignee, to the full end of the term for which the Letters Patent may be granted as fully and entirely as the same would have been held and enjoyed by Assignor if this assignment had not been made.

IN WITNESS WHEREOF, the parties hereto have executed this Assignment as of the date first above written.
