ASSIGNMENT

WHEREAS, Pavilion Medical Innovations, LLC, a Delaware limited liability company with offices located 50 Loring Drive, Norwell, MA 02061, hereinafter referred to as Assignor, owns rights in the patents identified in Exhibit A, attached hereto,

WHEREAS, TAS Medical, Inc., a Delaware corporation with offices located at 1100 Industrial Rd., Suite 16, San Carlos, CA 94070 hereinafter referred to as Assignee, is desirous of acquiring the entire right, title, and interest in, to, and under the inventions described in the patents identified in Exhibit A, including any priority right derived from the application,

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged,

Assignor assigns and transfers to Assignee and Assignee's legal representatives, successors, and assigns the entire right, title, and interest in, to, and under the inventions, the referenced patents, and other such applications that may be filed in the U.S. and/or any country foreign to the U.S. on the inventions, and the patents that may issue thereon,

Assignor will not execute any writing or do any act conflicting with the terms of this assignment,

Assignor will at any time upon request, without further or additional consideration, but at the expense of the Assignee, execute such additional assignments and other writings and do such additional acts as the Assignee may deem necessary or desirable to pursue the patents identified herein, including, but not limited to, rendering all necessary assistance in making applications for and obtaining patents that may issue thereon in the U.S. and any countries foreign to the U.S. on the invention, and in enforcing any rights accruing as a result of such applications or patents, by, for example, executing statements and other affidavits,

Assignor and Assignee agree the terms of this assignment shall bind, and inure to the benefit of, the legal representatives, successors, and assigns of all parties hereto.
