ASSIGNMENT

THIS ASSIGNMENT is by and between XIANG, Jia-Ning residing at 5th Floor, Building C4 East No. 666 Gaoxin Road, East Lake Hi-tech Development Zone Wuhan, Hubei 430079 ("Assignor"); and XW Laboratories Inc. located at Offices of Offshore Incorporations (Cayman) Limited, P.O. Box 31119 Grand Pavilion, Hibiscus Way, 802 West Bay Road, Grand Cayman, KY1 - 1205 Cayman Islands ("Assignee").

The Assignor has invented a certain invention (the "Invention") described in:

A US Application entitled "PRODRUGS OF GAMMA-HYDROXYBUTYRIC ACID COMPOSITIONS AND USES THEREOF" which was filed on February 13, 2019 as Application No. US/16/275165 ("Application").

The Assignee desires to acquire the entire right, title and interest in and to the Invention and the Application, and in and to any patents (collectively, "Patents") that may be granted for the Invention in any and all countries and regions in the world.

Assignor acknowledges and agrees that the Invention is a service invention made during the term of Assignor' respective employment by Assignee. Assignor acknowledges and agrees that Assignee own the entire right, title and interest in and to the Invention and any and all patent applications and patent rights deriving from or relating to the Invention by operation of law pursuant to the Patent Law and other relevant laws of the People's Republic of China and other applicable laws upon creation of the Invention.

To the extent that any right, title and interest in and to the Invention and the patent applications and patent rights related thereto still resides with Assignor under any applicable laws, and for valuable consideration, the receipt and sufficiency of which Assignor acknowledges, Assignor hereby sells, assigns, and transfers to Assignee, its successors, legal representatives and assigns, the entire right, title and interest in and to: the Invention, the Application, and any Patents; any divisions, continuations, continuations-in-part of the Application, and any foreign applications of the Application and any divisions, continuations, continuations-in-part of the foreign applications, and any other application claiming priority rights from the Application; any reissues, reexaminations, or extensions of any and all Patents; the right to file patent applications directly in the name of Assignee (in countries where such filings are permissible); and the right to claim priority rights deriving from the Application (collectively, the "Rights").

Assignor warrants that they are joint owners of the Rights, and they have not done and will not do anything to encumber the Rights. Assignor agrees to not sign any writing or do any act

Assignment Re Chinese Patent Application No.201310013710.3

conflicting with this assignment, and, without further compensation, sign all documents and do such additional acts as Assignee deem necessary or desirable to: perfect Assignee's enjoyment of the Rights; prepare and prosecute the Application or any other applications for Patents; conduct proceedings regarding the Rights, including any litigation or interference proceedings; or perfect or defend title to the Rights. Assignor requests the Commissioner of Patents or any other office of similar authority to issue any Patents that may be issued on the Invention to Assignee. Assignor acknowledges and agrees that Assignee shall have the rights to further assign or otherwise transfer any and all Rights to any third party and Assignor waives any right of first refusal that Assignor may have for acquiring such Rights in the event of such assignment or transfer to a third party.
