ASSIGNMENT

WHEREAS, I, Yasutoshi Tajima of 3-6-8, Toyosaki, Kita-ku, Osaka 531-0072, Japan, have invented a new design for an "Exercise Apparatus," for which an application under the Hague System for the International Registration of Industrial Designs, designating Japan, the European Union, and the United States, was filed November 15, 2017, the U.S. application being assigned Serial No. 35/504,969 by the United States Patent and Trademark Office;

WHEREAS, Natural Create, Inc. having a place of business at 3-11-25-1105, Oyodonaka, Kita-ku, Osaka 531-0076, Japan ("ASSIGNEE"), desires to acquire all right, title, and interest in and to the above-identified application and the design(s) and invention(s) described, and any patent issuing from the application in the United States and in all foreign countries;

NOW THEREFORE, be it known I, for and in consideration of certain good and valuable consideration, the sufficiency and receipt of which is acknowledged, sell, assign, and transfer unto ASSIGNEE, their successors, legal representatives, and assigns, the application and the inventions and designs described and claimed therein for the territory of the United States of America and all continuation, divisional, continuation-in-part, and reissue applications associated therewith; all corresponding patent applications in foreign countries; all applications under the Hague Agreement Concerning the International Registration of Industrial Designs; all applications for extension filed or to be filed for the inventions; and all Letters Patent, Invention and Design Registrations, Utility Models, Extensions, Reissues, and other patent or registration rights obtained for the designs or inventions described or claimed in the application in the United States of America or any other country;

I also assign any right, title, and interest in and to the application and the designs and inventions described or claimed therein that have not already been transferred to the ASSIGNEE;

I warrant that I have made no assignment of the application, inventions, designs, patents, registrations, or other protections therefor to a party other than ASSIGNEE and I am under no obligation to make any assignment to any other party; and

I further agree to cooperate with the ASSIGNEE in obtaining and sustaining of any and all such patent and other protections contemplated herein and in confirming ASSIGNEE's exclusive ownership of the application and the designs and inventions described or claimed therein, but at the expense of ASSIGNEE.

I have reviewed and understand the contents of the Applications, including, if applicable, the claims thereof, which may have been amended by a preliminary amendment filed with the application or which is contemplated. I affirm the Applications were made or authorized to be made by me. I acknowledge the duty to disclose information material to patentability as defined in 37 CFR 1.56, including for continuation-in-part applications, material information which became available between the filing date of the prior application and the national or PCT international filing date of the continuation-in-part application. I hereby acknowledge that any willful false statement regarding inventorship of the Applications may be punishable under 18 U.S.C. 1001 by fine or imprisonment of not more than five (5) years, or both.

The Commissioner of Patents is authorized and requested to issue any U.S. Letters Patent solely in accordance with the terms of this Assignment, to Natural Create, Inc., their successors, legal representatives, and assigns, as the assignee of the entire right, title, and interest therein.

The Effective Date of this Assignment shall be November 15, 2017.

IN WITNESS WHEREOF, the parties hereto have executed this Assignment as of the date(s) indicated below.
