CORPORATE PATENT ASSIGNMENT FOR ALL COUNTRIES

This Patent Assignment (this "Assignment") is made and entered into as of February 20, 2015, by and between **JVL Ventures, LLC**, a Delaware limited liability company, with a business address of 230 Park Avenue, Suite 2700, New York , NY 10169 ("Assignor"), and **Google Inc.**, a Delaware corporation, with a business address of 1600 Amphitheatre Parkway, Mountain View, CA 94043 ("Assignee").

WHEREAS, Assignor and Assignee entered into an Asset Purchase Agreement Between Google Inc. and JVL Ventures, LLC dated as of February 20, 2015, (the "Asset Purchase Agreement"), pursuant to which Assignor agreed to sell, transfer, assign and deliver and Assignee agreed to purchase and accept assignment of, among other assets, the patents and patent applications as identified in Schedule A hereto;

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged:

1. Assignor hereby sells, assigns, transfers and conveys unto Assignee, its successors and assigns, including any nominees, all of Assignor's rights, title and interest in and to (i) all inventions described in the patents and patent applications listed on the attached **Schedule A**, and in and to said patents and patent applications and all divisions, renewals and continuations thereof, and all Letters Patent of the United States which may be granted thereon, and all reissues and extensions thereof, and all applications for Letters Patent or other grants of protection of proprietary rights including, but not limited to, inventor's certificate, utility model, utility certificate, patent of importation, registration of patent and industrial design registration which may be filed, and which may be granted, upon said inventions in any countries or regions foreign to the United States, and all reissues, renewals and extensions thereof ("Patent Rights") and (ii) all benefits, privileges, causes of action, common law rights, and remedies relating thereto throughout the world, including, without limitation, all of Assignor's rights to: (a) apply for and maintain all registrations, renewals and/or extensions thereof, (b) bring actions and recover damages for past, present and future infringement or other violation thereof and (c) grant licenses or other interests therein.

2. Assignor hereby authorizes and requests the Commissioner for Patents of the United States, and all officials of countries or regions foreign to the United States having authority so to do, to issue all such Letters Patent or other grants of protection upon said Patent Rights to the Assignee or to such nominees as it may designate.

3. Assignor authorizes and empowers said Assignee or nominees to invoke and claim for any application for such Letters Patent or other grants of protection ensuing from said applications for Patent Rights filed by it or them, the benefit of the right of priority provided by

the International Convention for the Protection of Industrial Property, as amended, or by a convention which may henceforth be substituted for it, and to invoke and claim such right of priority without further written or oral authorization from Assignor.

4. Assignor hereby consents that a copy of this Assignment shall be deemed a full and formal equivalent of any assignment, consent to file or like document which may be required in any country or region for any purpose and more particularly in proof of the right of the said Assignee or nominees to claim the aforesaid benefit of the right of priority provided by the International Convention for the Protection of Industrial Property, as amended, or by any convention which may henceforth be substituted for it.
