Whereas, Assignor has invented certain new and useful processes, machines, articles of manufacture, compositions of matter, and/or improvements thereof ("Invention") disclosed in

- an application for United States Letters Design Patent entitled **ROTATING WASH BRUSH** ("Application"), said application being executed on or about an even date herewith.

Whereas, Assignor desires to convey all rights, title and interests in and to the same to Andreas Stihl AG & Co. KG ("Assignee"), with offices located at Badstr. 115, D-71336 Waiblingen, GERMANY;

Now, for valuable consideration by Assignee to Assignor, the receipt of which is hereby acknowledged, and for other good and valuable consideration, Assignee and Assignor hereby agree as follows:

Assignor hereby conveys, assigns, sells and transfers to Assignee all rights, title and interests in and to the Invention disclosed in said application, said application, and said Letters Design Patent, and in and to any and all continuation, division, renewal, or substitute applications based in whole or in part upon said Invention or upon said application, and any and all Letters Patent, reissues, and extension of Letters Patent granted for said Invention or upon said application, said Letters Patent, and Assignor hereby grants to Assignee the right to apply in its own name for patents or inventor's certificates and related rights heretofore or hereafter filed for the Invention in the United States, including (without limitation) all rights to claim priority based thereon, all patents granted thereon and all reissues, extensions and renewals thereof.

Assignor hereby binds his heirs, legal representatives, and assigns, as well as himself, to do, upon Assignee's request and at Assignee's expense, but without additional consideration to Assignor, his heirs, legal representatives, or assigns, all acts reasonably serving to assure that the Invention, said application, said Letters Patent, and any and all Letters Patent based on the Invention or said application, shall be held and enjoyed by Assignee as fully and entirely as the same could have been held and enjoyed by Assignor, his heirs, legal representatives, and assigns if this assignment had not been made; and particularly to execute and deliver to Assignee all lawful application documents including petitions, specifications, and oaths, and all assignments, disclaimers, and lawful affidavits in form and substance as may be requested by Assignee; to communicate to Assignee all facts known to Assignor relating to the Invention or the history thereof; to furnish Assignee with any and all documents, photographs, models, samples, and other physical exhibits in Assignor's control or in the control of his heirs, legal representatives, or assigns which may be useful for establishing the facts of Assignor's conception, disclosures, and reduction to practice of the Invention; and to testify to the same in any interference, other litigation, or proceeding related thereto.

IN WITNESS WHEREOF, Assignor has hereunto set hand and seal.
