ASSIGNMENT

WHEREAS we, Jack N. Losso and Jose Daniel Estrada Andino, the below-named inventors, whose addresses and citizenship are as stated below next to our names, have made an invention in "Glycosaminoglycans from *Alligator mississippiensis*," which invention is the subject of a Patent application to be filed on or before July 15, 2018; which is a continuation-in-part of Patent Application Serial No. 16/223,908, filed December 18, 2018; which claimed the benefit of the priority of United States provisional patent application Serial No. 62/612,772, filed January 2, 2018.

Now, therefore, for good and valuable consideration, receipt of which is acknowledged, we have agreed to assign and transfer and do hereby assign and transfer unto the Board of Supervisors of Louisiana State University and Agricultural and Mechanical College, its successors and assigns, our entire right, title, and interest in and to the said invention and said patent applications; and in and to any and all Letters Patent and reissues and extensions thereof, of the United States of America and countries foreign thereto (including the right to apply for Letters Patent in foreign countries in its own name and to claim any priority rights for such foreign applications to which such applications are entitled under international conventions, treaties, or otherwise), including the right to claim priority from United States nonprovisional patent application number 16/223,908, filed December 18, 2018; and from United States provisional patent application serial number 62/612,772, filed January 2, 2018; which have been or may be granted on any of the foregoing to be held and enjoyed as fully and exclusively as they would have been by us had this assignment and transfer not been made.

We do further agree for ourselves and for our heirs, executors, and administrators, to execute and deliver without further consideration any further applications, assignments, and documents, and to perform such acts as we lawfully may, that may be deemed necessary by the said Board of Supervisors of Louisiana State University and Agricultural

and Mechanical College, its successors, assigns, and nominees, fully to secure its interest as aforesaid and to obtain or maintain Letters Patent in any and all countries;

And we do hereby authorize the Director of the United States Patent and Trademark Office, and any foreign counterpart to the Director, to issue any and all Letters Patent which may be granted upon any of the said applications, to the said Board of Supervisors of Louisiana State University and Agricultural and Mechanical College, as the assignee of the entire interest therein.
