ASSIGNMENT

This assignment ("Assignment") is made by Pierre E. BOUGIS of Marseille, France and Marie-France EAUCLAIRE of Marseille, France (the "Assignors") to Assignees, **CENTRE NATIONAL DE LA RECHERCHE SCIENTIFIQUE** and **AIX-MARSEILLE UNIVERSITY** ("Assignees"), having respective places of business at 3 rue Michel-Ange, 75794 Paris, France and 58 bd Charles Livon, 13007 Marseille, France.

Recitals

A. Assignors have invented a new and useful invention entitled **SURFACE PLASMON RESONANCE APPROACH TO MONITOR PROTEIN-LIGAND INTERACTIONS** with an International Application Filing Date of January 26, 2016, for which an application for United States Letters Patent was filed July 24, 2017 in the United States Patent and Trademark Office.

B. Assignors authorize and request insertion of the serial number of the application when officially known:

The United States Application Serial No.: 15/545,980;

C. Assignors believes the Assignors to be the original, first and joint inventors of the invention disclosed and/or claimed in the application for Letters Patent.

D. The parties desire to have a recordable instrument assigning from the Assignors to the Assignees the entire rights, title and interest in and to the invention, the application and all Letters Patent in the United States and throughout the world that may be granted or issued for the invention or that derive a right of priority from the application (including, without limitation, all divisional, continuation, continuation-in-part and continued prosecution applications thereof, and all reissues and reexaminations thereof, and all foreign counterparts thereof) (collectively, the "Invention Patents").

Agreement

NOW, THEREFORE, in accordance with the obligations to assign the Invention Patents and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignors agree to the foregoing and as follows:

1. Assignors do and will sell, assign and transfer to Assignees, Assignors' entire rights, title, and interest in and to each of the Invention Patents, including, without limitation, the rights to file foreign applications directly in the name of the Assignees and to claim for any such foreign applications any priority rights to which such applications are entitled under international conventions, treaties, or otherwise.

2. Assignors agree that, upon request and without further compensation, but at no expense to Assignors, Assignors and Assignors' legal representatives and assigns will do all lawful acts, including the execution of papers and the giving of testimony, that may be necessary or desirable for obtaining, sustaining, reissuing, or enforcing each of the Invention Patents in the United States and throughout the world, and for perfecting, recording, or maintaining the title of Assignees, and Assignees' successors and assigns, in and to each of the Invention Patents in the United States and throughout the world. In the event that Assignees are unable for any reason to secure Assignors' signatures to any document that may be necessary or desirable for obtaining, sustaining, reissuing, or enforcing each of the Invention Patents in the United States and throughout the world, or for perfecting, recording, or maintaining the title of Assignees, and Assignees' successors and assigns, in and to each of the Invention Patents in the United States and throughout the world, Assignors hereby irrevocably designate and appoint Assignees and Assignees' duly authorized officers and agents as Assignors' agents and attorneys-in-fact to act for and on Assignors' behalf and instead of Assignors to execute such document, all with the same legal force and effect as if executed by Assignors.

3. Assignors represent and warrant that Assignors have not granted and will not grant to others either (1) any rights, title or interest in and to any of the Invention Patents, or (2) any rights inconsistent with the rights granted herein.

4. Assignors authorize and request the Commissioner for Patents of the United States and the various counterparts thereof throughout the world to issue and/or grant any Letters Patent granted for each of the Invention Patents to Assignees, their successors and assigns, as the Assignees of the entire interest in such Invention Patents.

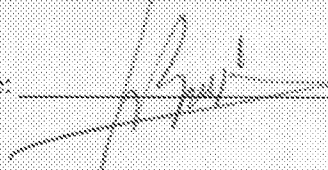

5. This Assignment constitutes the entire agreement with respect to its subject matter and supersedes all prior or contemporaneous oral or written agreements concerning such subject matter. No waiver, amendment, or modification of this Assignment shall be effective against the Assignees, unless in writing executed by a duly authorized representative of the Assignees. This Assignment shall be governed in all respects by the laws of the United States of America and by the laws of the state/province of California, as such laws are applied to agreements entered into and to be performed entirely within California between California residents. Each of the parties irrevocably consents to the exclusive personal jurisdiction of the federal and state courts located in California, as applicable, for any matter arising out of or relating to this Assignment, except that in any action seeking to enforce any order or any judgment of such federal or state courts located in California, such personal jurisdiction shall be nonexclusive. A breach of any of the promises or agreements contained herein will result in irreparable and continuing damage to Assignees for which there will be no adequate remedy at law, and Assignees shall be entitled to injunctive relief and/or a decree of specific performance, and such other relief as may be proper.
