ASSIGNMENT

This Assignment is made by Amarnath Natarajan, residing at 19908 Marcy Street, Omaha, Nebraska 68022; and Sandeep Rana, residing at 18906 Ontario Street, Omaha, Nebraska 68130, to the BOARD OF REGENTS OF THE UNIVERSITY OF NEBRASKA, Assignee, a public body corporate of the State of Nebraska having offices at Varner Hall, 3835 Holdrege Street, Lincoln, Nebraska, 68583-0745, USA.

WHEREAS, Assignors are joint inventors of new and useful improvements in "Dimers of Covalent Inhibitors" for which an International Application for Patent was filed on 12/21/2017, in the United States Patent Receiving Office, bearing International Application Number PCT/US17/67794, and identified as UNMC Docket No. 17025PCT.

WHEREAS, Assignors believe that Assignors are original joint inventors of the invention disclosed and claimed in said application for Letters Patent; and

WHEREAS, the parties desire to have a recordable instrument assigning the entirety of Assignors' right, title and interest in and to said invention, said application and any Letters Patent that may be granted for said invention throughout the world;

NOW, THEREFORE, in accordance with the obligations to assign the invention and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignors hereby sell, assign, and transfer to Assignee, to the extent not already assigned to Assignee, the entirety of Assignors' rights, titles, and interests in and to said invention, said application, any and all other patent applications anywhere in the world which the undersigned may file and/or be named as an inventor, solely or jointly, and in any and all reissues, reexaminations, supplemental examinations, inter parties reviews, oppositions, post-grant reviews, supplementary protection certificates and/or extensions thereof, including without limitation, the right to bring suit and to claim and retain all damages and/or seek other remedies for the past, present and future infringement of any of the foregoing, and any Letters Patent that may be granted for said invention in the United States and throughout the world, including the right to file foreign applications directly in the name of the Assignee and to claim for any such foreign applications any priority rights to which such applications are entitled under international conventions, treaties, or otherwise.

Assignors agree that, upon request and without further compensation, but at no expense to the Assignors, Assignors and Assignors' legal representatives and assigns will do all lawful acts, including the execution of papers and the giving of testimony, that may be necessary or desirable for obtaining, sustaining, reissuing, or enforcing Letters Patent throughout the world for said invention, and for perfecting, recording, or maintaining the title of Assignee, its successors and assigns, to said invention, said application, and any Letters Patent granted for said invention throughout the world.

Assignors represent and warrant that Assignors have not granted and will not grant to others any rights inconsistent with the rights granted herein.

Assignors authorize and request that any Letters Patent granted for said invention, whether on said application or on any subsequently filed divisional, continuation, continuation-in-part or reissue application, be issued to the Assignee, its successors and assigns, as an assignee of the entirety of Assignors' interest in said invention.

IN WITNESS WHEREOF, Assignors have executed this Assignment on the date(s) provided.
