ASSIGNMENT

This assignment is between:

Werner Kuhr whose address is 1227 Elm St. Denver, CO 80220 and Craig Rhodine whose address is 310 East Stirrup Trail Monument, CO 80132, hereinafter designated as the **Assignors**,

for good and valuable consideration, the receipt and adequacy of which is hereby acknowledged, the undersigned **Assignors** agree to assign and hereby do assign, transfer and set over to

ChemiSensor, LLP whose address is P.O. Box 2053 Monument, CO 80132-2053, a Limited Liability Partnership organized under the laws of the state of Colorado,

hereinafter designated as the **Assignee**, the entire right, title and interest in the invention and Patent to Assignee for the entire term of the Patent and any reissues or extensions and for the entire terms of any patents, reissues or extensions that may issue from foreign applications, divisions, continuations in whole or part or substitute applications filed claiming the benefit of the Patent whether national, regional or international, in any country in the world. The right, title and interest conveyed in this Assignment together with all rights powers, privileges and immunities thereby conferred on the proprietor or owner thereof, is to be held and enjoyed by Assignee and Assignee's successors as fully and exclusively as it would have been held and enjoyed by Assignor had this assignment not been made, including without Limitation accrued rights of action and remedies in

respect of infringement of such rights and the right to claim priority from the Patent by virtue of the Paris Convention or otherwise, in any application for a patent or other right, whether national, regional or international, for any country in the world including any Patent Cooperation Treaty (PCT) Contracting State.

Assignor further agrees to: (a) cooperate with Assignee in the protection of the patent rights and prosecution and protection of foreign counterparts; (b) execute, verify, acknowledge and deliver all such further papers, including patent applications and instruments of transfer; and (c) perform such other acts as Assignee lawfully may request to obtain or maintain the Patent and any and all applications and registrations for the invention in any and all countries.

The **Assignors** further assign the **Assignee** the entire right, title and interest in the invention, all applications for patent and any Letters Patent which may be granted therefore, known as

Title: Distributable Chemical Sampling and Sensing System

Application Serial No: 15/616,870

Priority Date: 6/14/2012

Filing Date: 6/7/2017

The **Assignor(s)** further warrant that the **Assignor(s)** are the true owner of all

rights, including the right to claim priority, and the true inventor of the invention(s) comprised in the Patent Application listed hereinabove.

The **Assignors** further covenant to do all such acts and to execute all such deeds and documents as may be necessary or expedient to perfect the title to **Assignee** to the Patent Application in any part of the World and to perform all affirmative acts which may be necessary to obtain a grant of a valid patent to the **Assignee**.

This agreement and the parties' actions under this Agreement shall be governed by and construed under federal law as applicable, and the laws of the state of Colorado, without reference to conflict of law principles. The parties hereby expressly consent to the jurisdiction and venue of the federal and state court within the State of Colorado.

The undersigned declare that all statements made herein of his (her) own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.
