in, to, and under the foregoing applications, and any and all utility, design, provisional, continuation, continuation-in-part, continued prosecution, and divisional applications thereof and all patents issuing from any of the foregoing application(s);

in, to, and under ASSIGNOR's exclusive right to make and prosecute any and all applications for patents, reissues, renewals, and extensions thereof;

in, to, and under any and all patents and Convention and Treaty rights of all kinds, in the United States of America and all other countries throughout the world, including under the International Convention for the Protection of Industrial Property, the Patent Cooperation Treaty, and applicable bilateral or multilateral treaties, for all such subject matter;
