ASSIGNMENT OF PATENTS

This Patent Assignment (this “Assignment”), dated as of June 30, 2019, is by and between **SOCIÉTÉ DES PRODUITS NESTLÉ S.A.**, a *société anonyme* organized under the laws of Switzerland (“Assignor”), and **PRECISION IBD, INC.**, a Delaware corporation (“Assignee”).

WHEREAS, Assignor is owner of the patents and patent applications set forth in Schedule A, attached hereto and incorporated herein by reference (the “Patents”);

WHEREAS, in connection with the Intellectual Property Purchase Agreement dated June 30, 2019, Assignor is willing to assign to Assignee all of Assignor’s right, title and interest in and to the Patents; and

WHEREAS, Assignee desires to acquire all right, title and interest in and to the Patents from Assignor.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, as of June 30, 2019, Assignor hereby assigns and transfers to Assignee, its successors and assigns (i) all of Assignor’s right, title and interest in and to the Patents, to be held and enjoyed by Assignee to the full end of the term for which such Patents may be granted, as fully and entirely as the same would have been held and enjoyed by Assignor had this assignment not been made, (ii) all rights to make, use, sell, offer for sale, have made, import and otherwise exploit articles of manufacture to which the Patents have been applied, and (iii) all rights to sue and recover for, and all rights to profits or damages due or accrued, arising out of or in connection with any and all past, present or future infringements or other violations of the Patents.

Assignor further agrees that it will cause to be performed such other lawful acts, and to be executed such further assignments and other lawful documents, as Assignee may, from time to time, reasonably request to effect fully this Assignment and to permit Assignee to be duly recorded as the registered owner of the Patents. Assignee shall be responsible for all fees for recordation of this Assignment, and Assignor agrees to cooperate fully with Assignee to accomplish such recordation.

This Assignment is being executed and delivered pursuant to, and is subject to and shall be governed by the terms and conditions of, the Intellectual Property Purchase Agreement. Nothing in this Assignment is intended to or shall be deemed to amend, modify, supplement, or limit in any manner any of the representations, warranties, covenants, agreements, rights, or obligations of Assignor under the Intellectual Property Purchase Agreement. In the event of any conflict between the terms and conditions of this Assignment and the terms and conditions of the Intellectual Property Purchase Agreement, the terms and conditions of the Intellectual Property Purchase Agreement shall control.

IN WITNESS WHEREOF, the parties have caused this Assignment to be executed and delivered as of the date first written above.
