A. Assignor is the owner of U.S. Patent No. 9,813,400, entitled "Computer-Implemented Systems and Methods of Device Based, Internet-Centric, Authentication", issued November 7, 2017, and U.S. Patent No. 10,348,715, entitled "Computer-Implemented Systems and Methods of Device Based, Internet-Centric, Authentication", issued July 9, 2019 (collectively the "Patents").

B. Assignor desires to transfer and assign the Patents to Company.

NOW, THEREFORE, for good and valuable consideration, sufficiency and receipt of which is hereby acknowledged, and intending to be legally bound, Assignor hereby agrees as follows:

1. Assignor hereby agrees to assign, and hereby does assign, transfer and set over to Company and its successors, legal representatives and assigns (the "Assignee"), the entire right, title and interest in the United States of America and all foreign countries in and to the Patents and any and all reissues, divisions, continuations, continuations-in-part, renewals, and extensions thereof, and the inventions represented thereby, and all rights under the International Convention for the Protection of Industrial Property, including but not limited to the right to claim damages and seek all other remedies against any third party's infringement of said patents which occurred prior to or after the assignment, the right and interests to claim priority related to said patents as well as all other emoluments, interests, profits, and benefits arising therefrom.

2. Assignor further agrees to cooperate with the Assignee in every way possible and to do all affirmative acts, and to execute all papers which counsel for Assignee shall advise are necessary and/or desirable without charge to Assignee in connection with said applications including, without limitation, the execution of separate assignments in connection with such applications, claims or provisions of the International Convention for Protection of Industrial Property or similar agreements.

3. Assignor hereby authorizes and requests the Commissioner of Patents to record
