ASSIGNMENT

This assignment is made effective the 12 day of July, 2019 ("Effective Date"), by and between Michael H. Weston, an individual with an address at 104 Red Cedar Place, Chapel Hill, North Carolina 27514, and Frank Edward Smith, an individual with an address at 3786 Broadview Drive, Cincinnati, Ohio 45308 (together, "Assignors"), and Key-Pak Technologies, LLC, a limited liability company with an address at 53 Hubbardton Road, Wayne, New Jersey 07470 ("Assignee").

WHEREAS, Assignors are the inventors of the invention(s) described in:

- US Patent No. 9,067,708, issued on June 30, 2015;
- US Patent No. 9,714,127, issued on July 25, 2017; and
- US Patent Application No. 15/658,212, filed on July 24, 2017 (collectively, the "Patent Assets").

WHEREAS, Assignee desires to acquire and Assignors desire to assign all right, title and interest in and to the Patent Assets.

NOW, THEREFORE, for the sum of One Dollar and other good and valuable consideration, the receipt of which is hereby acknowledged, Assignors hereby sell, assign, transfer and set over, unto Assignee, its successors, legal representatives and assigns, the entire right, title and interest in and to the Patent Assets and all continuations, divisions and renewals thereof, and all Patents of the United States which may be granted thereon and all reissues and extensions thereof; and all applications for intellectual property protection, together with the right to file such applications and the right to claim for the same the priority rights derived from said Patent Assets under the laws of the United States of America.

Assignors authorize and request the Commissioner for Patents to record Assignee as the owner of the Patent Assets, including any continuations, divisions, continuations-in-part, reissues, reexaminations or extensions thereof, and to issue any and all letters patents of the United States thereon to Assignee, as assignee of the entire right, title and interest in and to the same, for the sole use and enjoyment of Assignee, its heirs, successors, assigns or other legal representatives.

Assignors hereby represent and warrant that Assignors' right, title and interest in and to the Patent Assets is free and clear of any liens or encumbrances, that Assignors have the full right to assign all of Assignors' interest therein, and that Assignors have not executed and will not execute any agreement or other instrument in conflict herewith.

Assignors grant to Assignee the full right to sue for and recover all profits and damages recoverable for past infringement of the invention(s), the Patent Assets, and any patent or patents that may be obtained therefor, for Assignee's use and behalf, and for the use and behalf of Assignee's heirs, successors, assigns and other legal representatives.

Assignors and Assignee shall use their respective commercially reasonable best efforts to take, or cause to be taken, all action, and to do, or cause to be done, all things necessary, proper, or advisable under the applicable laws and regulations to consummate and make effective the assignment contemplated by this Assignment. If at any time after the Effective Date any further action is necessary or desirable to carry out the purposes of this Assignment, the parties hereto shall take or cause to be taken all such necessary action, including, without limitation, the execution and delivery of such further instruments and documents as may be reasonably requested by the other party for such purposes or otherwise to consummate and make effective this Assignment.
