ASSIGNMENT OF PATENT

WHEREAS, I, Jeffery L. Bleich, residing in Palo Alto, California; and Paul Mannheimer, residing in Los Altos, California, (hereinafter referred to as "ASSIGNORS") have invented and own a certain invention entitled **SYSTEMS AND METHODS FOR COORDINATING MUSCULOSKELETAL AND CARDIOVASCULAR OR CEREBROVASCULAR HEMODYNAMICS**, for which invention we have executed a Utility Application for Letters Patent filed herewith.

WHEREAS, Pulson, Inc., a corporation of the state of California, having a place of business at 2625 Park Blvd., Palo Alto, California 94306 (hereinafter referred to as "**ASSIGNEE**"), is desirous of acquiring the exclusive right, title and interest in, to and under said invention and in, to and under any Patent and similar legal protection to be obtained therefor in the United States of America, its territorial possessions and in any and all countries foreign thereto.

NOW, THEREFORE, for good and valuable consideration, the receipt of which is hereby acknowledged, **ASSIGNORS** hereby sell, assign, transfer and set over unto **ASSIGNEE**, its successors and assigns, the full and exclusive right, title and interest to said invention and to all Letters Patent or application or similar legal protection, not only in the United States and its territorial possessions, but in all countries foreign thereto to be obtained for said invention by said application, and to any continuation, division, renewal, substitute or reissue thereof or any legal equivalent thereof in the United States or a foreign country for the full term or terms for which the same may be granted, including all priority rights under the Paris Convention for the Protection of Industrial Property; and **ASSIGNORS** hereby authorize and request the United States Commissioner of Patents and Trademarks and any officials of foreign countries whose duty it is to issue patents or any legal equivalent thereof to issue said patents and equivalents to said **ASSIGNEE**, its successors and assigns, in accordance with this **ASSIGNMENT** and hereby transfers all rights of action, power and benefit belonging to or accruing from the invention including the right to undertake proceedings to recover past and future damages and claim all other relief in respect of any acts of infringement thereof whether such acts shall have been committed before or after the date of this **ASSIGNMENT**.

ASSIGNORS hereby covenant that no assignment, sale, agreement or encumbrance has been or will be made or entered into which would conflict with this **ASSIGNMENT**;

ASSIGNORS further covenant that **ASSIGNEE** will, upon its request, be provided promptly with all pertinent facts and documents relating to said application, said invention and said Letters Patent and legal equivalents as may be known and accessible to **ASSIGNORS** and that **ASSIGNORS** will testify as to the same in any interference or litigation related thereto and will promptly execute and deliver to **ASSIGNEE** or its legal representative any and all papers, instruments or affidavits required to apply for, obtain, maintain, issue and enforce said application, said invention and said Letters Patent and said equivalents in the United States or in any foreign country, which may be necessary or desirable to carry out the purposes thereof.
