ASSIGNMENT

WHEREAS, we, **Andrew Lightfoot**, and **Nicola Cooper** (the “Assignors”), are inventors of certain new and useful invention and discovery, disclosed in a patent application entitled “**Mycobacteria Tuberculosis Chaperonin 60.1 Peptides and Uses Thereof**” (“the Invention”), for which a U.S. non-provisional application was filed with the United States Patent and Trademark Office on **July 3, 2019**, and assigned U.S. Patent Application **Serial No. 16/476,064** (the “Application”); and

WHEREAS, **Immune Regulation Limited**, having its principal office at **Stevenage Bioscience Catalyst, Gunnels Wood Road, Stevenage, Hertfordshire, SG1 2FX, United Kingdom**, and which, together with its successors and assigns, is hereinafter called “Assignee,” is desirous of acquiring the title, rights, benefits, and privileges hereinafter recited;

NOW, THEREFORE, in consideration of good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Assignors hereby assign to Assignee all of Assignors’ right, title, and interest in the Invention; all improvements therein; all applications and priority rights arising therefrom; and any patents, reissues, and extensions thereof; which issue in any country upon any patent application that corresponds with any of the following: the Application; any application that claims priority from the Application (including utility applications, divisionals, continuations, continuations-in-part, international applications, or any foreign regional or national applications); or any application based in whole or in part on any of the foregoing.

Assignors agree that such Assignors and Assignors’ heirs and legal representatives will, without further consideration, cooperate with Assignee in the prosecution of all of the above applications, execute, verify, acknowledge, and deliver all such further papers, including applications for patents and for reissues and extensions therefor, and instruments of assignment and transfer thereof, and will communicate any facts known to Assignors relating to the Invention, to obtain, maintain, or enforce patents for the Invention and improvements therein, in any and all countries, and to vest title thereto in Assignee. Assignors further agree that such Assignors will, without further compensation to Assignors during the term of such Assignors’ employment by Assignee, and

thereafter, for reasonable compensation as determined by Assignee, perform such other acts as may be reasonably required when requested by Assignee, including attending depositions, preparing and executing declarations and affidavits, and testifying as a witness, to obtain, maintain, or enforce patents for the Invention and improvements therein, in any and all countries, and to vest title thereto in Assignee.

The undersigned (whose title is supplied below) is authorized to act on behalf of the Assignee.
