ASSIGNMENT

WHEREAS, WE, DUSTIN D. BIELECKI, of 178 Crocker Street, Sloan, New York 14212, DILLON JONES, of 224 Ivyhurst Circle, Apartment 1, Amherst, New York 14226, TIMOTHY FOX, of 1090 Town Line Road, Alden, New York 14004, DANIEL TORNOW, of 9225 South Hill Road, Boston, New York 14025, and DAVID C. MEYER, of 9800 Zimmerman Road, Boston, New York 14025, have invented certain new and useful improvements in a HIGH SECURITY FASTENER WITH EXTERNAL SHROUD RETAINER, for which U.S. Patent Application No. 15/434,046 was filed on February 15, 2017 (the "Application"); and

WHEREAS, McGard LLC ("McGard"), a New York corporation having a place of business at 3875 California Road, Orchard Park, New York 14127, is desirous of acquiring all right, title and interest in and to the Application, the invention described therein, and any and all applications and patents claiming priority therefrom.

NOW, THEREFORE, in consideration of the sum of One Dollar (\$1.00), and other good and valuable consideration to us in hand paid, the receipt and sufficiency of which is hereby acknowledged, we do hereby assign, sell, transfer, convey and set over to McGard, free and clear of all liens, encumbrances and other restrictions or obligations, our entire right, title and interest in and to (i) the Application, (ii) any and all inventions and designs described in the Application and any and all patent applications relating thereto which have been or shall be filed in the United States and/or any foreign countries, including without limitation International Patent Application No. PCT/US2017/018161, (iii) any and all applications claiming the benefit of the filing date or claiming priority, directly or indirectly, from any of the foregoing, including without limitation any and all non-provisional applications, divisional applications, continuation applications, continuation-in-part applications, reissue applications, reexaminations, extensions, and corresponding international, regional, national and other foreign applications, (iv) any and all rights, including without limitation all priority rights, under any international conventions, unions, agreements, acts and treaties, (v) any and all patents issuing or reissuing, directly or indirectly, from any of the foregoing, (vi) any and all other forms of protection that may be provided in any country for the Application, the inventions described therein, or the disclosure therein, and (vii) any and all claims for damages, injunctive relief and all other remedies arising out of any infringement or violation of any of the foregoing assigned rights, with the right to sue for past infringement and to collect and retain damages that may have accrued prior to the effective

date of this Assignment, or which have accrued or may hereafter accrue, for McGard's own use and benefit and for the use and benefit of McGard's successors, assigns and other legal representatives (all of the foregoing hereafter referred to collectively as the "Subject Property").

AND we do hereby acknowledge and agree that McGard, as the assignee of the entire right, title and interest thereto, shall have sole control over and sole and absolute discretion with respect to any decisions regarding the Subject Property, including without limitation with respect to any decisions regarding where to file patent applications and the prosecution and maintenance of any patent applications or patents.

AND we do hereby authorize and request that any patents issuing from any of the Subject Property be issued to McGard, as the assignee of the entire right, title and interest thereto.

AND we do hereby agree to execute, upon request of McGard, any and all documents that McGard deems necessary or convenient to vest or record title in and to any of the Subject Property in McGard, and to provide such other material, information or assistance related to the Subject Property as McGard may deem necessary or convenient.

AND we do further understand, confirm and acknowledge that in executing this document we are transferring our entire interest in and to the Subject Property to McGard, and that the attorney(s) appointed in the Application also represent McGard and any co-inventor(s) identified in the Application. We consent to such multiple representation for the purpose of prosecuting any of the foregoing patent applications, and do hereby authorize the attorney(s) to take all future instructions from McGard. We are unaware of any potential interest that we may have that differs from, or is adverse to, that of McGard with respect to the prosecution of the foregoing patent applications, and we further acknowledge that, prior to executing this document, we did not seek or obtain any legal advice from McGard's attorney(s) with respect to this Assignment and that we have been informed of our right to seek independent counsel of our own choosing and at our personal expense.

IN WITNESS WHEREOF, we have executed this Assignment as of the 15th day of February 2017.
