## PATENT ASSIGNMENT AGREEMENT

Whereas, **OLIVER CLAYTON DANIELS** (hereinafter the "Assignor") is an original inventor and/or is named as an inventor of the following patents and/or patent applications (collectively the "Patent Assets"):

PCT patent application number **PCT/US16/57417**, titled **AUGMENTED REALITY PLATFORM**, filed **October 17, 2016**;

US patent application number **15/295,949**, titled **AUGMENTED REALITY PLATFORM**, filed **October 17, 2016**.

**BENT IMAGE LAB, LLC** (hereinafter the "Assignee"), an **Oregon Limited Liability Company**, has previously acquired and/or hereby acquires by this Agreement, the entire right, title, and interest in and to the Patent Assets, and to any and all patents and patent rights obtained therefrom.

Therefore, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Assignor has previously sold, assigned, and transferred to the Assignee and/or by this Agreement the Assignor hereby sells, assigns, and transfers to the Assignee, the entire right, title, and interest in and to:

- (1) the Patent Assets;
- (2) any subject matter contained within the Patent Assets, including all inventions and improvements disclosed therein; and
- (3) any patent rights and patent properties extending from the Patent Assets, including:
  - a. patents issuing from the Patent Assets;
  - b. patents and patent applications that claim priority to the Patent Assets;
  - c. patents and patent applications directed to any aspect of the subject matter contained within the Patent Assets, and
  - d. the right to sue for past, ongoing, and future infringement of the Patent Assets

within and throughout the entire United States and the entire world, and within any patent office (including the World Intellectual Property Organization).

The Assignor hereby authorizes any patent office to issue to the Assignee any patent of the Patent Assets, any patent that claims priority to the Patent Assets, and any patent directed to any aspect of the subject matter contained within the Patent Assets to the Assignee (or the Assignee's successors or assigns) as the assignee of the entire right, title, and interest.

The Assignor hereby agrees that the Assignor (or the Assignor's executors or representatives) will make, execute, and deliver to the Assignee (or the Assignee's

successors or assigns) all written instruments necessary for the Patent Assets and any patent application or issued patent that claims priority to or incorporates the subject matter of the Patent Assets, including any further application papers, power of attorney, declarations, affidavits, assignments, and other documents, and will communicate to the Assignee (or the Assignee's successors or assigns) all facts known to the Assignor relating to the Patent Assets and the history thereof, and will testify in all legal proceedings and generally do all things which may be necessary or desirable to secure and to vest the entire right, title, and interest in the Assignee (or the Assignee's successors or assigns).

The Assignor covenants that the Assignor has made no other assignment, grant, mortgage, license or other agreement affecting the rights and property of the Patent Assets to any other entity, and that the Assignor possesses the right to convey the Patent Assets and associated rights and properties to the Assignee.

The Assignor hereby authorizes the Assignee (or the Assignee's successors or assigns) to insert updated information into the following table for any patent property extending from the Patent Assets that transferred by this Agreement from the Assignor to the Assignee, including without limitation: the patent number, patent application number, filing date, issue date, patent office, and/or jurisdiction once such updated information is known.

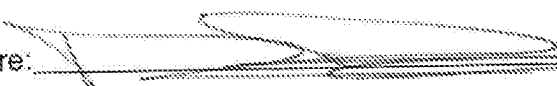

Updated Information:

| Patent / App. Number | Filing Date / Issue Date | Patent Office / Jurisdiction |
|----------------------|--------------------------|------------------------------|
|                      |                          |                              |
|                      |                          |                              |
|                      |                          |                              |

In testimony by which I, **OLIVER CLAYTON DANIELS**, as the Assignor, have set my hand.

## PATENT ASSIGNMENT AGREEMENT

Whereas, **RAYMOND VICTOR DI CARLO** (hereinafter the "Assignor") is an original inventor and/or is named as an inventor of the following patents and/or patent applications (collectively the "Patent Assets"):

PCT patent application number **PCT/US16/57417**, titled **AUGMENTED REALITY PLATFORM**, filed **October 17, 2016**;

US patent application number **15/295,949**, titled **AUGMENTED REALITY PLATFORM**, filed **October 17, 2016**.

**BENT IMAGE LAB, LLC** (hereinafter the "Assignee"), **an Oregon Limited Liability Company**, has previously acquired and/or hereby acquires by this Agreement, the entire right, title, and interest in and to the Patent Assets, and to any and all patents and patent rights obtained therefrom.

Therefore, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Assignor has previously sold, assigned, and transferred to the Assignee and/or by this Agreement the Assignor hereby sells, assigns, and transfers to the Assignee, the entire right, title, and interest in and to:

- (1) the Patent Assets;
- (2) any subject matter contained within the Patent Assets, including all inventions and improvements disclosed therein; and
- (3) any patent rights and patent properties extending from the Patent Assets, including:
  - a. patents issuing from the Patent Assets;
  - b. patents and patent applications that claim priority to the Patent Assets;
  - c. patents and patent applications directed to any aspect of the subject matter contained within the Patent Assets, and
  - d. the right to sue for past, ongoing, and future infringement of the Patent Assets

within and throughout the entire United States and the entire world, and within any patent office (including the World Intellectual Property Organization).

The Assignor hereby authorizes any patent office to issue to the Assignee any patent of the Patent Assets, any patent that claims priority to the Patent Assets, and any patent directed to any aspect of the subject matter contained within the Patent Assets to the Assignee (or the Assignee's successors or assigns) as the assignee of the entire right, title, and interest.

The Assignor hereby agrees that the Assignor (or the Assignor's executors or representatives) will make, execute, and deliver to the Assignee (or the Assignee's

successors or assigns) all written instruments necessary for the Patent Assets and any patent application or issued patent that claims priority to or incorporates the subject matter of the Patent Assets, including any further application papers, power of attorney, declarations, affidavits, assignments, and other documents, and will communicate to the Assignee (or the Assignee's successors or assigns) all facts known to the Assignor relating to the Patent Assets and the history thereof, and will testify in all legal proceedings and generally do all things which may be necessary or desirable to secure and to vest the entire right, title, and interest in the Assignee (or the Assignee's successors or assigns).

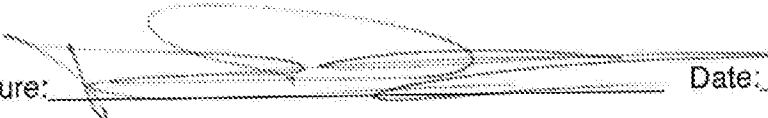

The Assignor covenants that the Assignor has made no other assignment, grant, mortgage, license or other agreement affecting the rights and property of the Patent Assets to any other entity, and that the Assignor possesses the right to convey the Patent Assets and associated rights and properties to the Assignee.

The Assignor hereby authorizes the Assignee (or the Assignee's successors or assigns) to insert updated information into the following table for any patent property extending from the Patent Assets that transferred by this Agreement from the Assignor to the Assignee, including without limitation: the patent number, patent application number, filing date, issue date, patent office, and/or jurisdiction once such updated information is known.
