PATENT ASSIGNMENT

This Patent Assignment is made and entered effective as of the 12th day of September, 2016, by and between tradeMONSTER Group, Inc., a corporation organized and existing under the laws of the State of Delaware, having a place of business at 10 S. Riverside Plaza Suite 500, Chicago, Illinois 60606 (hereinafter referred to as ASSIGNOR) and E*TRADE Financial Corporation, a corporation organized and existing under the laws of Delaware and having a place of business at 532 Market Street, San Francisco, California 94104 (hereinafter referred to as ASSIGNEE).

WHEREAS, ASSIGNOR is the record owner of all right, title and interest in and to the patents and patent applications listed on Schedule A, and any domestic or foreign counterparts or equivalents thereto, existing now or in the future and including, but not limited to, patents of utility, improvement or addition, utility model and appearance and industrial design patents and inventors certificates, as well as divisionals, reissues, continuations (in whole or in part), renewals and extensions of any of the foregoing and any patents that may issue from any of the foregoing (collectively, the "Patents");

WHEREAS, ASSIGNOR and ASSIGNEE have entered into a stock purchase agreement pursuant to which ASSIGNOR has agreed to assign its rights in the Patents to ASSIGNEE; and

WHEREAS, ASSIGNEE desires to acquire and ASSIGNOR is willing to assign to ASSIGNEE the rights hereinafter defined.

NOW, THEREFORE, in consideration of the premises and mutual agreements herein contained, and other good and valuable consideration, the receipt of which is hereby acknowledged, the parties agree as follows:

ASSIGNOR hereby sells, assigns and transfers to said ASSIGNEE, its entire right, title and interest in and to the Patents, the inventions described and claimed in the Patents, and including the subject matter of all claims that may be obtained therefrom, for ASSIGNEE's own use and enjoyment, and for the use and enjoyment of its successors, assigns or other legal representatives, as fully and entirely as the same would have been held and enjoyed by ASSIGNOR if this assignment and transfer had not been made, together with all income, royalties, damages or payments due or payable as of the Effective Date or thereafter related to any of the foregoing, including, without limitation, all claims for damages by reason of past, present or future infringement or other unauthorized use of the Patents, with the right to sue for and collect the same for ASSIGNEE's own use and enjoyment, and for the use and enjoyment of its successors, assigns or other legal representatives.

ASSIGNOR authorizes and requests the United States Commissioner of Patents and Trademarks and any other similar government authority outside the United States to record ASSIGNEE as owner of the Patents and issue any and all patents issued thereon to ASSIGNEE, as assignee of the entire right, title and interest in, to and under the same, for the sole use and enjoyment of ASSIGNEE and its successors, assigns or other legal representatives.

This Assignment may be executed in one or more counterparts, each of which shall be deemed to be an original, and all of which together shall constitute one and the same instrument.

IN WITNESS WHEREOF, this Patent Assignment is made and each party has caused its name to be hereunto subscribed, by its duly authorized officer to become effective as of the date first indicated above.
