ASSIGNMENT

WHEREAS I, Michael Puckette ("Assignor"), having an address of *2A Stone St, Waterford, CT 06385*, have made a certain new and useful invention as set forth in an application for United States Letters Patent entitled Novel Methods of Making and Using Vaccines Utilizing Minicircle DNA Expression Vectors for Production of Foot-and-Mouth Disease Virus Proteins and Virus-Like Particles, desire to assign such application to the United States Department of Homeland Security on the date of execution of this document, as shown below.

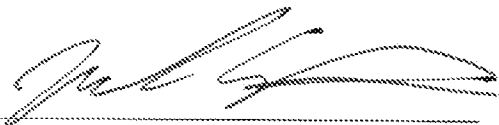

AND WHEREAS, the United States Department of Homeland Security ("DHS"), having an address of *1120 Vermont Avenue NW, Washington, DC, 20005*, ("Assignee"), is desirous of acquiring the entire right, title and interest in and to said invention, and in and to any and all Letters Patent of the United States and foreign countries which may be obtained therefor;

NOW, THEREFORE, for good and valuable consideration, Michael Puckette does hereby assign to DHS, its legal representatives, successors, and assigns, the title and ownership in said invention, including the right to claim priority under 35 U.S.C. §119 and the right to sue for past infringement, as set forth in the above-mentioned application, including any continuations, continuations-in-part, divisions, reissues, re-examinations or extensions thereof, and in and to any and all patents of the United States and foreign countries which may be issued for said invention. The U.S. Government retains a license in said invention, and any other rights provided by law, that includes but is not limited to a nonexclusive, nontransferable, irrevocable, paid-up license to practice or have practiced for or on behalf of the United States any inventions disclosed in the said invention throughout the world.

The undersigned hereby grant(s) the Department of Homeland Security, the power to insert on this Assignment any further identification, including the application number and filing date, which may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office for recordation of this document.

AND Assignor requests the Commissioner of Patents and Trademarks to issue any Letters Patent of the United States which may be issued for said invention to said Assignee, its legal representatives, successors or assigns, as the sole owner of the entire right, title and interest in and to said patent and the invention covered thereby.
