ASSIGNMENT OF PATENT RIGHTS

The Palmer Family Trust (The "Assignor") is the registered owner and patent holder of United States Patent Number 8,885,873, dated November, 11, 2014, and titled "System and Methods for Using Curvatures to Analyze Facial and Body Features" (the "Patent"). Francis R Palmer, III, MD, a California individual, and (the "Assignee") desires to acquire all rights in and all title to the Patent.

THEREFORE, for valuable consideration, the receipt of which is acknowledged, Assignor assigns Assignee one hundred percent (100 %) of his right, title, and interest in the invention and Patent to Assignee for the entire term of the Patent and any reissues or extensions and for the entire term of any patents, reissues, or extensions that may issue from any foreign application, division, continuation in whole or part, or substitute applications filed claiming the benefit of the Patent. The right, title and interest so conveyed in the Assignment is to be held and enjoyed by the Assignee and Assignee's successors as fully and exclusively as it would have been held and enjoyed by the Assignor had this assignment not been made.

Assignor further agrees to:

1. Cooperate with Assignee in the protection of the patent rights and prosecution and protection of foreign counterparts;
2. Execute, verify, acknowledge and deliver all such further papers, including patent applications and instruments of transfer; and
3. Perform such other acts as Assignee lawfully may request to obtain or maintain the Patent and any and all applications and registrations for the inventions in any and all countries.

Dated this date of September 6, 2017, and effective as of December 30, 2016.

Francis R Palmer, III, MD
The Palmer Family Trust Trustee

Francis R Palmer, III, MD
