ASSIGNMENT

WHEREAS, Beyond Design of 4515 N. Ravenswood Avenue, Chicago, Illinois 60640 ("Beyond Design") and Johnson Controls, Inc. of 507 East Michigan Avenue, Milwaukee, Wisconsin 53201 ("JCI") are parties to a Master Services Agreement dated March 15, 2016 ("the Agreement");

WHEREAS, pursuant to the Agreement, BEYOND DESIGN confirms JCI's ownership of all rights and interests in all products or information derived as result of services rendered by BEYOND DESIGN for JCI under the Agreement, including but not limited to the patent applications as set forth on Schedule A, and the sale, assignment and transfer of all such rights and interests to Johnson Controls Technology Company, 2875 High Meadow Circle, Auburn Hills, Michigan 48326 ("JCTC"), a wholly-owned subsidiary of JCI;

NOW, THEREFORE, for good and valuable consideration, receipt of which is hereby acknowledged, BEYOND DESIGN hereby sells, assigns and transfers to JCTC, its successors and assigns, BEYOND DESIGN's entire right, title and interest in and to the patent applications set forth on Schedule A, any and all inventions covered thereby and improvements thereto, any and all continuations, divisions, continuations-in-part, extensions or reissues thereof, collectively "the Inventions," together with all rights, interests and obligations in and to the Inventions running toward or granted to BEYOND DESIGN under any previously executed assignment agreements between the inventors named in the above-referenced patent applications and BEYOND DESIGN or any of its predecessors in title, and together with any and all claims and demands BEYOND DESIGN or its predecessors may have, at law or in equity, whether presently known, unknown, accrued or to accrue, arising out of past or present infringements of the claims of any patent application directed to the Inventions, including the right to recover all claims for damages and compensation. Such right, title and interest shall be held and enjoyed by JCTC, its successors and assigns, as fully and entirely as the same would have been held and enjoyed by BEYOND DESIGN if this assignment and sale had not been made.

BEYOND DESIGN further hereby sells, assigns and transfers to JCTC all worldwide rights to the Inventions in all patent granting countries of the world, including the right to file applications or to obtain patents for the Inventions in its own name in said countries, together with all of BEYOND DESIGN's rights of priority. BEYOND DESIGN hereby authorizes and requests any official, whose duty it is to issue in any country a patent or patents on the Inventions, to issue patent or patents to JCTC or its nominees, successors or assigns.
