## **ASSIGNMENT OF INVENTION**

WHEREAS, Matt Barnum, a resident of the state of Ohio (hereinafter “Assignor”) has contributed to the development of a cell phone signal booster generally represented in Exhibit A (the “Invention”);

WHEREAS, Wilson Electronics, LLC, a Delaware limited liability company with its principal place of business at 3301 East Deseret Drive, St. George, Utah 84790 (hereinafter “Assignee”) desires to acquire any rights, title or interest Assignor may have in the Invention;

NOW, THEREFORE, for good and valuable consideration paid by the Assignee to the Assignor, the receipt and sufficiency whereof is hereby acknowledged, Assignor hereby grants and assigns unto Assignee, his entire right, title, and interest in the Invention and any and all patent applications relating to the same including, but not limited to, U.S. Design Patent Application No. 29589505 filed January 2, 2017 as well as any and all divisions, continuations, continuations-in-part, reissues or extensions of such applications, and in all corresponding or related applications filed in countries foreign to the United States (collectively “the Patent Applications”), and in all patents issuing therefrom.

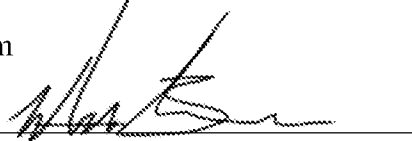

Assignee also hereby acquires the right, power, and authority to file and prosecute the Patent Applications in its own name, wherever such right may be legally exercised, including the right to claim the priority and benefits of the International Convention. Assignee also hereby maintains the right to bring actions for infringement of any right in the Patent Applications and any patents issuing therefrom in its own name, including past infringement, in any jurisdiction.

Assignor further agrees that it will cooperate with and assist Assignee in Assignee's obtaining, perfecting, enforcing and defending its rights in the Invention and Patent Applications pursuant to this Agreement including, but not limited to, the execution of documentation required by the U.S. Patent and Trademark Office.
