ASSIGNMENT BY INVENTORS

This Assignment is by Kevin S. Koch of 756 Main St. #2A, Dubuque, IA 52001; Larry J. Hermesen of 970 11th St. N.E., Dyersville, IA 52040-1419; Samuel J. Mantemach of 8867 Olde Worthington Road, Worthington, IA 52078; Eugenio Farach of 1591 Highway 67, Clinton, IA 52732; Robert C. Blush of 30234 E. Worthington Road, Worthington, IA 52078, and Collin C. Clark of 11838 Westercamp Dr., Dubuque, IA 52003 (the "Assignors"). The Assignors have invented one or more certain inventions (the "Invention(s)") described in a Provisional Patent Application of the United States entitled "Systems and Methods for Attaching Fabric Panels to Structures" (the "Application"), filed on June 29, 2018, and assigned U.S. Provisional Patent Application No. 62/691,824. The Assignor authorizes the Assignee, identified below, or its representatives to insert the application number of the Application when known.

Engineering Services and Products Company, having its principal place of business at 1396 John Fitch Blvd., South Windsor, CT 06074 ("Assignee"), desires to acquire the entire right, title and interest in and to the Invention(s) and the Application, and in and to any patents (collectively, "Patents") that may be granted for the Invention(s) in the United States or in any foreign countries.

For valuable consideration, the receipt and sufficiency of which Assignors acknowledge, Assignors hereby sell, assign, and transfer to Assignee, its successors, legal representatives and assigns, the entire right, title and interest in and to: the Invention(s), the Application, and any Patents; any divisions, continuations, and continuations-in-part of the Application and any other application claiming priority rights from the Application; any reissues, reexaminations, or extensions of any and all Patents; the right to file foreign applications directly in the name of Assignee; and the right to claim priority rights deriving from the Application (collectively, the "Rights"). Assignors warrant that Assignors own the Rights, and that the Rights are unencumbered. Assignors also agree to not sign any writing or do any act conflicting with this assignment, and, without further compensation, sign all documents and do such additional acts as Assignee deems necessary or desirable to: perfect Assignee's enjoyment of the Rights; conduct proceedings regarding the Rights, including any litigation or interference proceedings; or perfect or defend title to the Rights. Assignors request the Commissioner of Patents to issue any Patent of the United States that may be issued on the Invention(s) to Assignee. This Assignment may be executed in counterparts.
