PATENT ASSIGNMENT

WHEREAS, Nexans, a French société anonyme, with a principal place of business at Immeuble Le Vinci 4 allée de l'Arche, 92070 Paris la Defense Cedex ("*Assignor*"), owns all right, title and interest in and to the patents and/or patent applications listed in *Exhibit A* attached hereto, including the inventions described therein and the patents issued thereon (collectively, the "*Patents*").

WHEREAS, US Conec Ltd., a Delaware corporation, with a principal place of business at 1138 25th Street Southeast, Hickory, North Carolina 28602 ("*Assignee*"), and Assignor have entered into a Patent Purchase Agreement dated December 19, 2018 (the "*PPA*") under which Assignor agreed to sell and Assignee agreed to purchase the Patents.

NOW THEREFORE, for valuable consideration, the receipt and sufficiency of which is hereby acknowledged, and subject to the terms and conditions of the PPA, Assignor does hereby irrevocably sell, assign, convey and transfer unto Assignee, its successors and assigns, free and clear of any and all liens, restrictions, claims and encumbrances, Assignor's entire right, title, and interest, including the right to claim entitlement and priority, in and to the Patents and (a) any foreign counterparts arising from or predicated upon the Patents or upon the patents described in the renewals, re-examinations, divisionals, continuations, continuations-in-part or reissues of such Patents, (b) any patent applications resulting from the patent applications included in the Patents or described or included in clause (a) above, (c) any reissues, renewals, re-examinations, divisionals, continuations, continuation-in-part applications, and continued prosecution applications (and their relevant international equivalents) of the patent applications described or included in the Patents or in clause (a) or (b) above, to the extent the claims are directed to subject matter specifically described in the patent applications described or included in the Patents or in clauses (a) or (b) above, and the resulting patents; and (e) any patents resulting from reissues, reexaminations, renewals, divisionals, continuations, continuations-in-part or extensions (and their relevant international equivalents) of the patents described or included in the Patents or in clauses (a), (b) and (c) above (collectively, the "*Assigned Patents*"), together with (i) all inventions, invention disclosures and discoveries specifically disclosed in any of the Assigned Patents, (ii) rights to apply in any or all countries of the world for patents, certificates of invention, utility models, industrial design protections, design patent protections, or other governmental grants or issuances of any type based on any of the Assigned Patents and the inventions, invention disclosures and discoveries specifically disclosed herein; (iii) causes of action (whether known or unknown or whether currently pending, filed, or otherwise) and other enforcement rights under, or on account of, any of the Assigned Patents and/or the rights described herein, including, without limitation, all causes of action and other enforcement rights for (x) damages, (y) injunctive relief, and (z) any other remedies of any kind for past, current and future infringement; and

Assignor hereby authorizes the respective patent office or governmental agency in each jurisdiction to issue any and all patents, certificates of invention, utility models or other governmental grants or issuances that may be granted upon any of the Assigned Patents in the name of Assignee, as the assignee to the entire interest therein.

Assignor will, at the reasonable request of Assignee and without demanding any further consideration therefor, do all things necessary, proper, or advisable, including without limitation, the execution, acknowledgment, and recordation of specific assignments, oaths, declarations, and other documents on a country-by-country basis, to assist Assignee in obtaining, perfecting, sustaining, and/or enforcing the Assigned Patents. Such assistance will include providing, and obtaining from the respective inventors, prompt production of pertinent facts and documents, giving of testimony, execution of petitions, oaths, powers of attorney, specifications, declarations or other papers, and other assistance reasonably necessary for filing patent applications, complying with any duty of disclosure, and conducting prosecution, reexamination, reissue, interference or other priority proceedings, opposition proceedings, cancellation

proceedings, public use proceedings, infringement or other court actions and the like with respect to the Assigned Patents. With prior written approval by Assignee, Assignee will pay Assignor's reasonable costs and expenses.

This Assignment is deemed to be executed and delivered within the State of Delaware, and it is the intention of the parties that it shall be construed, interpreted and applied in accordance with the laws of the State of Delaware without regard to its conflicts of law principles.
