ASSIGNMENT

This Patent Assignment Agreement (this "Patent Assignment"), dated as of the date below, is made by Interfacial Consultants LLC ("Assignor"), a business entity organized and existing under the laws of the State of Wisconsin, and having its principal offices at N4660 1165th Street, Prescott, WI 54021, in favor of Infinite Material Solutions, LLC ("Assignee"), a limited liability company organized and existing under the laws of the State of Delaware, and having its principal offices at N4660 1165th Street, Prescott Wisconsin 54021.

WHEREAS, Assignor is the registered owner of the patents and patent applications identified on Exhibit A;

WHEREAS, reference is made to that certain Operating Agreement of Assignee, dated August 27, 2018, by and among Assignee, Assignor as a member, Nagase America Corporation as a member, Jeffrey J. Cernohous as a manager, Larry Doerr as a manager, Ryuichi Uchida as a manager and Brad Hilborn as a manager (the "Operating Agreement");

WHEREAS, pursuant to the terms of the Operating Agreement, Assignor desires to contribute the Contributed Intellectual Property (as defined by the Operating Agreement), including but not limited to the patent and patent applications identified on Exhibit A (collectively the "Assigned Patent Rights"); and

WHEREAS, Assignee desires to acquire and Assignor desires to convey, transfer and assign to Assignee, Assignor's entire right, title and interest in the Assigned Patent Rights.

NOW, THEREFORE, for good and valuable consideration paid by Assignee to Assignor, the receipt and sufficiency of which is hereby acknowledged, Assignor and Assignee agree as follows:

1. Assignment. For good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor hereby irrevocably conveys, transfers and assigns to Assignee (and its successors and assigns), and Assignor hereby accepts, all of Assignor's right, title and interest in and to the Assigned Patent Rights, as well as any and all applications claiming priority to said Assigned Patent Rights, including all divisions, continuations, continuations-in-part, or renewals thereof, and the Letters Patent, both foreign and domestic, that may or shall issue, therefrom including all reissues or extensions of such patents including all of its rights provided by applicable law of any jurisdiction, by international treaties and conventions, and otherwise throughout the world and further including the right to sue, counterclaim and recover for past, present and future infringement of the rights assigned or to be assigned, as fully and entirely as the same would have been held by the Assignor if this Patent Assignment had not been made.

2. Recordation. Assignor hereby authorizes the Commissioner for Patents in the United States Patent and Trademark Office and any other governmental officials to record and register this Patent Assignment and issue said Letters Patent to the above mentioned Assignee in accordance herewith. Assignor shall take such steps and actions following the date hereof, including the execution of any documents, files, registrations, or other similar items, to ensure that the Assigned Patent Rights are properly assigned to Assignee, or any assignee or successor thereto.

3. Authorization. Assignor hereby authorizes the above-mentioned Assignee, its successors and assigns, or anyone it may properly designate, to insert in this instrument the date of execution and/or filing date and application number of said application when ascertained. Assignor further authorizes said Assignee, its successors and assigns, or anyone it may properly designate, to apply for Letters Patent, in its own name if desired, in any and all foreign countries, and additionally to claim the filing date of said United States application and/or otherwise take advantage of the provisions of the applicable laws of any jurisdiction, or international treaties and conventions.

4. Further Actions. Following the date hereof, Assignor and Assignee, and their respective successors and assigns, do hereby covenant and agree that Assignor will not execute in writing or do any act whatsoever conflicting with this Patent Assignment, and that Assignor or its executors or administrators will at any time upon request, without further or additional consideration, but at the expense of Assignee, its successors and assigns, execute and deliver any affidavits, declarations, oaths, exhibits, assignments, powers of attorney, or other documents, as may be necessary to effect, evidence, or perfect the assignment of the Assigned Patent Rights to Assignee, and render all necessary assistance in making application for and obtaining original, divisional, reissued or extended Letters Patent of the United States, or of any and all foreign countries on said invention, and in enforcing any rights occurring as a result of such applications or patents, by giving testimony in any proceedings or transactions involving such applications or patents.

5. Counterparts. This Patent Assignment may be executed in counterparts, each of which shall be deemed an original, but all of which together shall be deemed one and the same agreement. A signed copy of this Patent Assignment delivered by facsimile, e-mail, or other means of electronic transmission shall be deemed to have the same legal effect as delivery of an original signed copy of this Patent Assignment.

6. Successors and Assigns. This Patent Assignment shall be binding upon and shall inure to the benefit of the parties hereto and their respective successors and assigns.

AMENDMENT TO ASSIGNMENT

This is an amendment to the Assignment recorded April 22, 2019 at Reel 048952, Frame 0299. Exhibit A to that Assignment correctly identified the listed patent application serial numbers and their filing dates, but incorrectly identified the titles to U.S. Appl. Ser. No. 15/990,234 and PCT International Appl. Ser. No. PCT/US2018/034738. A corrected version of Exhibit A is shown below and replaces the version recorded at Reel 048952, Frame 0303:
